Minutes - Final

City Council

Wednesday, May 20, 2026

6:30 PM

Council Chambers

Invocation:

Mr. Santo Napoli stated we are going to kick off this City Council meeting on May 20, 2026 and we are going to start with our normal invocation. He would like to include first a moment of silence for the tragic death of a young man last Friday. He would also like to mention that we lost Howell Warner who made an impact at the Allentown Rescue Mission and the Lehigh Valley Humane Society. He stated so a moment of silence and we will start that now. Thank you.

Courtesy of the Floor

Please observe the Rules of Council when given privilege of the floor. A copy of the Council Rules can be found on the council agenda on the website. If you would like to speak, we are asking that you fill out a card – they are on the back table provide them to the clerk before speaking. Include your name and address. When speakers have the privilege of the floor, personal insults, attacks, name calling or other behavior that is inconsistent with the purpose of conducting official business will not be tolerated.

Courtesy of the Floor is meant to provide public comments on items that are not on the agenda. Public comment during consideration of ordinances, resolutions and motions are limited by topic – your comments must be relevant to the subject matter of the proposed legislation. Public comments are taken before council votes on legislation.

You are given the privilege of the floor to provide public comment; it is not a question and answer session. State your position clearly and concisely for consideration. If you speak on behalf of yourself, you have three minutes and if you are speaking on behalf of a group that has several members present, you will be given five minutes in place of everyone coming to the podium. Please address the Council President not individual councilpersons or city staff. Refrain from insulting or defaming staff, officials, and the public; refrain from using offensive language, cursing, and making noises while other people are speaking. Please be aware that comments and/or behavior in violation of these rules will result in a forfeiture of all remaining time and you will be asked to return to your seat.

Mr. Santo Napoli stated that they are going to move to Courtesy of the Floor and this is for members of the public for comments that are not on the agenda. He asked do we got any cards.

Ms. Genesis Ortega stated yes, Jeani Garcia.

Mr. Santo Napoli stated ok.

Ms. Jeani Garcia, 208 S. 13th Street, stated hi everyone. She stated good evening president and members of City Council and stated that she would say mayor, but he is not here. She stated community members and neighbors. She stated that her name is Jeani Garcia and tonight she stands before them not only as a resident of Allentown and someone who works alongside our community every day, but as someone who understands personally what it means to lose a child to gun violence and what that means to turn pain into purpose. Before she speaks about policy or funding she wants to speak about a young man Tymell Mason who was brutally murdered on Friday at the McDonalds on the eastside on the 22nd District. She stated this weekend, we lost Tymell Mason to gun violence

and while we honor his legacy tonight, they have to acknowledge a difficult truth stating that night could have resulted in even more loss. She stated nearby eighth graders, eighth grade students from Lincoln Leadership Charter School had just attended their eighth grade dance. She stated like so many young people do after celebrating with friends, they gathered at a nearby McDonalds laughing, spending time together and simply being kids, but in a matter of moments what should have been a normal stating sorry, in a matter moments what should have been a normal childhood memory became something much heavier. Children who should have been talking about music friendship. The summer moving onto high school instead found themselves exposed to fear, chaos and trauma. She stated that should have stopped all of them in their tracks right now because when our youth cannot safely enjoy something as ordinary as spending times with friends after a school dance stating that they have to ask themselves harder questions. It is not about blame, but about responsibility. She asked what are we doing collectively to create communities where young people feel safe because public safety is not only what happens after violence and that night communities showed them what prevention and care could look like. She stated that she wants to recognize Priscilla Reyes stating she is from the city's Events Department. While shopping at Hair World with her own children and her mother parked outside in the car, Priscilla heard gunshots, immediately stepped into action, had them lock the door because she was concerned about her mother outside stating she came outside, she saw a bunch of eighth grade students dressed in formal wear running outside of McDonalds in fear of their own life. She gathered those kids heroically without even thinking of herself with her own child inside and got those students safely inside hair world and got them safely into the back of the store where the door locked for them and staying with them while they called their family to pick them up. Not only did she do that she then went outside again to retrieve her mother that was still in the car. She heard a young man saying help me stating his name again is Tymell Mason, an 18 year old senior student who was not graduating this year because he lost his life to gun violence. She stated that is not in her job description. That was humanity. That was community and that is public safety. She stated that she also wants to recognize Lieutenant Leonard for answering the phone that night, helping guide Priscilla through an unimaginable moment and making sure that those children remain safe and she wants to also recognize Officer Mania (sp) who responded to Tymelle and continuously performed CPR while waiting for EMS. She stated that those moments matter and those people matter, but we cannot continue acting as individuals with heroisms asking acts of individuals with heroism to carry the weight of the system from challenges. She stated that is why she is here tonight. Promised Neighborhood of the Lehigh Valley was proud to be named as a collaborator and partner in the city of Allentown ReCompete Application and award process. What is now known as

Allentown works. They are in approximately \$20 million investment through the United States Economic Development Administration. She stated that they collaborated, planned, and believed in a shared vision with the city of Allentown. She stated that investment was designed to strengthen workforce development, improve transportation, access, expand childcare access and remove barriers that prevent families from accessing opportunity. She stated that she supports that vision. She stated that they did. She stated that she is asking tonight how were they making sure implementation reflects what families are experiencing right now because workforce development and violence prevention are connected. Economic mobility and public safety are connected. If you do not feel safe in their neighborhoods participating in programs, getting jobs, getting to jobs and simply being young, then workforce outcomes become harder to achieve. At Promised Neighborhoods through the Department of Labor and workforce development investment, they have graduated three cohorts and what made that work was transformational and believing in incredible messengers and violence interrupters, but with people with lived experience, people who reflect our neighborhoods, people who build trust because representation matters. Restorative practice matters and long-term impact matters and as implementation of this five year investment continues, many of us are still asking where is the violence prevention strategy that was promised. How are the community organizers being engaged. How are the youth helping shape implementation. She stated that she also want to acknowledge something really important tonight. The city of Allentown has reported meaningful reduction in violent crime and recorded four homicides in 2024. The lowest homicide total in decades and the lowest since 1989. That progress deserves recognition, but progress does not mean the work is finished because for families who have lost someone, numbers do not tell the whole story. For them, it is an empty chair, a missed graduation, a birthday that never comes, and this weekend reminded us that our work is not done here. She stated that she understands and supports making sure officers have a safe and functional facility, but funding decisions reflect values and when millions are invested into buildings we should ask. What are we investing into the people asking can they invest into facilities and prevention. Can we invest in youth workforce pathways and mentoring incredible messengers, restore the practices, and community organizations doing this work every single day. Because prevention is infrastructure too. Relationships save lives. Opportunities save lives. She stated tonight, she wants to say something personal. She stated that she has not sat before City Council in a very long time. Not because she did not have concerns, not because she did not have anything to say, but too often their problems and more importantly their solutions have been tabled, delayed or worse, falling on deaf ears, but she is here tonight because she still believes and she still believes the city can lead. She stated that she believes in government and community

can work together so her ask tonight is simple, review the intent of the ReCompete investment, honor the collaborative work that brought this opportunity to Allentown, bring community organizations, youth and families back to the table, create and communicate a violence prevention strategy that compliments economic investment and make funding decisions with the community not just for the community stating we all time out more than condolences. We all are children in action. Thank you.

Mr. Jose Rivera, 219 N 9th Street, stated hello, hello and good afternoon. He stated that his name is Jose and will keep it shorter than Jeani. He stated that he loves Jeani, but stating his name is Jose Rivera. He stated that he is here to talk about the rise in violence like Jeani is in our community especially among the youth and many and especially among the youth. He stated that many of you stood at the press conference when the numbers were down and asked about the progress, but now the violence has increased where those same voices, where is the urgency now. They are watching violence move from our schools to park takeovers and other tragic loss of a life at McDonald's. This should be a season where we are celebrating graduations, proms, summer opportunities and the future of our young people, but instead families are grieving and communities are traumatized and yet another young life is gone and while response continues to be focused on security cameras, surveillance and technology, he needs everyone to understand one thing, technology could not love a child. Technology could not mentor a teenager. A system could not replace a human connection. These tools only respond after (inaudible) has happened and they only document the pain. He stated that they don't prevent it. Prevention starts long before the police tape goes up. It starts with relationships and trusted adults with mentors, outreach workers, counselors, coaches and community members willing to show up before a child feels abandoned, angry and hopeless. He stated so he has to ask where the investment in prevention like Ms. Jeani said. Where is the funding for community programs, mental health support, youth employment, trauma services and safe spaces? Where is the support for the people already on the ground doing the work each and every single day. He stated that he knows because at one point he was one of those people out in the street each and every day. He stated that his work has shifted, but he came back today to speak about it because these are still our kids. As community members there are ours and how many times have they just sit back and continue to watch this. He stated that they have seen and know what is going on in the schools. He stated that they have seen the park take over. He asked what are they going to wait for asking do you think that this summer is going to be nice and calm. It is not. It is going to be worse than before. He stated that public safety is not just policing. After a tragedy, public safety is making sure our children feel seen before they pick up anger. Before they join violence and before they become just another

headline. He stated that they cannot arrest their way out of lack of hope. He stated that they cannot surveil their way into healing. If they truly want safer communities then they must be willing to invest in people the same energy they invest in technology because every life that they lose is not just based on statistics. It is someone's child, someone's friend, someone who still had a future worth fighting for. Thank you.

Mr. Santo Napoli stated ok, any others.

Ms. Genesis Ortega stated no.

Mr. Santo Napoli stated ok.

Dr. Cynthia Mota asked can she say something.

Mr. Santo Napoli stated yes.

Dr. Cynthia Mota stated that she just wants to say that she knows that Priscilla is not here, but she just wants to thank Priscilla for all that she did. She stated that she got a lot of phone calls and this was very close to her because she took her daughter to the prom and they get them all dressed up and they look amazing and have a great party. She stated something that they can remember and with true honesty a lot of those kids have trauma, including her children. She stated that they don't want to go to school, put it that way. She stated when you go to the schools, you get to talk to so many different kids. She stated do you know what she means and they all know each other. She really believes that they need a lot of Counseling and something has to happen. She stated that something has to happen to help those kids. She stated that this should not have happening during prom. She does understand that it didn't happen in the school, but it did happen across the street. She stated and people need to talk about this. She stated that she understands that people are concerned because it gives a bad rap, but they are dealing with people's lives. She stated that this should never happen and we are talking about prom, we are talking about eighth graders. She stated that we aren't even talking about high school students. She stated that we are talking about eighth graders. Eighth graders are kids who are 13, 14 and 12. She stated that this is heavy duty and we should address this. She stated that she had the opportunity to speak with the Chief and knows that he has a lot of things that he is planning to move forward. He wants to collaborate and believes that hopefully there is going to be you know, a plan stating something needs to happen. Thank you.

Mr. Santo Napoli stated thank you, Ms. Mota. He stated go ahead Mr. Binder.

Mr. Jeremy Binder stated that he just wanted to note because he thinks there was some questions about the Allentown works stating that he is working with Councilperson Gerlach in that regard and believes to do a quarterly presentation for that because it is a huge grant and a huge opportunity for the city so he would just encourage with questions when they do that it will be at a CED meeting coming up. He stated continue to ask questions. Thank you.

Mr. Santo Napoli stated ok and thank you. He stated ok and onward to Contract Approvals.

Mr. Santo Napoli stated that this was vice president Mota's legislation.

Dr. Cynthia Mota stated yes. She stated that she is excited. Please vote for this. She stated that this will be great for our community, especially our children who do not deserve you know uh, being in danger because of second-hand smoke. Thank you.

Mr. Santo Napoli stated thank you and asked any questions or comments from the dais or Bill 32. He stated great legislation. Thank you. He asked

if there were any questions or comments from the public.

Mr. Kyle Ropski, 528 N Berks Street - Chair of the Allentown Environmental Advisory Council, stated that he is not speaking on behalf of the board here tonight, but he will share when Blue Zones first got here and they released their alcohol and tobacco policy. He did have some informal discussions with some of his fellow board members about smoking in the parks specifically. They entered discussions. They spoke on how it could be a public health concern obviously from smoking, but they also discussed the value of our parks natural spaces and their ability to filter the air and how removing the ability to smoke in those spaces could actually also raise a public health concern. Seeing this compromise tonight and eliminating its proximity to the parks stating that it is an excellent compromise and as a community member himself, he support it. He stated that he just wants to say that to. Thank you.

Mr. Santo Napoli stated ok and asked if there are any other public comments.

Dr. Cynthia Mota stated thank you to the Blue Zone and to the director, thank you so much and your team for doing such great work and collaborating. Thank you.

Mr. Santo Napoli stated ok, thank you and this came out of chair Gerlach's committee.

Ms. Ce Ce Gerlach stated yes it did and it was forwarded favorably.

Mr. Santo Napoli stated ok, thank you. He asked if there were any questions or comments from the dais. He stated Mr. Binder, go ahead.

Mr. Jeremy Binder stated so just a quick question and first off, he submitted a couple of questions and appreciates they got the information back. He

stated specific to it, his understanding is that the two positions that are being changed are moving from 25 percent to 50 percent utilization from the standpoint of the funding. He stated that one of his questions is how is that changed since the funding changing being reflected in the day to day responsibilities of those two positions.

Ms. Vicky Kistler stated that she believes the funding is changing for and stated it is hard to explain. She stated that they had it 75 25 and they had a 50. They analyzed the work that was done 25:22 by the individuals within this grant and they have administrative folks in this grant so that our Senior Planner will be amended from 75 percent of his salary in the General Fund and 25 percent of the grant fund stating that he is doing more work in the Allentown Works Grant so they adjusted it to be able to build more of his time. She stated that the Assistant Planner was 50 percent General Fund and 50 percent Grant Fund. They are doing more work on the General Fund side. They are doing more work on the outside recompute, Allentown Works Grant so what they are doing is being honest and clear in our accounting to our Allentown Works Grant who is doing how much work in which grant. She stated that we have to be very careful with Grant Funds that we only build to a grant the work that is specific to the grant and that they build to the General Fund work that is done when Council ask us for an analysis of a data collection out of Planning or they doing a community engagement for work that is not connected to the grant so after looking at the salaries, they are trying to make these salaries match the work being done.

Mr. Jeremy Binder stated thank you so the Senior Planner is doing more work with the grant and the Juniors are doing less work with the grant.

Ms. Vicky Kistler stated correct.

Mr. Jeremy Binder stated so from the seniors current and he appreciates asking about the job descriptions because he wants to read through and just kind of see and his question more comes into what's happening with the current workload so it is for the Senior Planners, it is their workload and being displaced or reallocating or are we are just adding to the workload of that person or.

Ms. Vicky Kistler stated that in honesty they are kind of (inaudible) of the workload of both. They are tracking better the work that's responsibly done for the grants. She stated right now they are in the start of the phase of the Allentown Works Grant which is a grant that is extremely specific to a geography and extremely specific to an age group and is extremely specific to a known working age group within the geography. There is a lot of data collection, data analysis and setting up all of the partnering

agencies who rose up and said that she can handle this part of this grant so that work needed to be done by the level of individuals classified as our Senior Planner. Now, they can come back to Council a year from now and say that they are up and running, things are going smoothly. We are going to shift again. She stated that they are in constant communication with the EDA who is our grant funder. They have also been cognizant and encouraged by Council before to bill as much as possible to a grant that will reduce the burden of the General Fund when possible so this is also another attempt to do that.

Mr. Jeremy Binder stated he thinks more specifically and stated that he appreciates that. He stated that he was just trying to understand from a senior perspective if the workload exist and now a 25 percent of that is being used somewhere else, presumably and stated that his concern is any city services that utilized that role are having 25 percent less of the access to that services because that person is being over-burdened allocated.

Ms. Vicky Kistler stated that she doesn't think it is going that way. She stated that in the very beginning of a planning grant. She stated that they needed the Assistant Planner position to do a lot more of here's the contracts, here's the templates, here is the processing. She stated that they are now at the point where we need the senior level to administer and the startup. She stated that she doesn't think they are, she think they are shifting back and forth between who is doing what work, but she doesn't think they are piling work on anyone.

Mr. Jeremy Binder stated ok, that is all the questions that he has and stated thank you.

Mr. Santo Napoli asked if there are any other questions or comments from the dais or any questions or comments from the members of the public on Bill 34.

NEW BUSINESS

Mr. Santo Napoli asked if there were any New Business from colleagues.

GOOD AND WELFARE

Mr. Santo Napoli asked if there was any Good And Welfare. He stated Chair Binder go ahead.

Mr. Jeremy Binder stated thank you. Just real quick stating that he just wanted to do a shout out to a program that a local organization is running which is Cohesion Network. They are running a Civic Leadership Academy. He stated that this is a nine month Program that's designed for Allentown residents that are focused on doing what we do here. Being on School Boards, being on committees, being on anything that is impacting civic leadership so he would encourage anyone whose even if you are remotely interested in engaging in Civics, it's a great program on how its getting its startup and if you go to CohesionNetwork.org/CLA you can get more information. Thank you.

Mr. Santo Napoli stated thank you. He stated ok, with that we will adjourn this meeting. Thank you everyone.
