

I'm submitting my resume for Allentown city controller, I know I would be the best person to step in and immediately continue the role. I've sat and spoke with Jeff for many hours about how he does the job, what it entails, and the best way to go about it. He's shown me the ins and outs and how to track items.

Being a former finance director for the Allentown School District Board of Directors. I've seen and worked with a budget 5 times the size of Allentown. I've read through files and I'm familiar with the inner workings of how budgets and governmental spending works.

I work in finance and have for almost 20 years and can bring knowledge and the quick learning needed to step into the role immediately.

Sincerely Patrick Palmer
