- **Why should Council unanimously support this bill?**

The City of Allentown Police and Fire Civil Service Board is charged with oversight and ensuring fairness in the hiring and promotional processes for the City of Allentown Police Department and Fire Department. The Board wishes to repeal the provisions of its Rules that automatically disqualify an applicant for police officer or firefighter from examination for or selection from an eligibility list if the applicant has failed to register with the Selective Service System. Female police officer and fire fighter applicants are not required to register for the Selective Service System. Thus, the Rule that mandates automatic disqualification of an applicant for police officer or firefighter from examination for or selection from an eligibility list if the applicant has failed to register with the Selective Service System directly conflicts with Part I, Rule I of the Board's Rules, which expressly adopts a policy of granting equal employment opportunities to all qualified persons without regard to gender. Further, the provision that an applicant for police officer or firefighter is automatically disqualified for failing to

register with the Selective Service System is not mandated by Pennsylvania law. Additionally, Federal Law, commonly known as the National Defense Administration Act for FY 2026, enacted on December 18, 2025, now mandates automatic registration for the Selective Service System for individual men, thereby removing the responsibility to register for the Selective Service System from individuals. As a result, the proposed changes to the Board's Rules do not conflict with Pennsylvania law and serve to modernize and harmonize the Rules with recently enacted Federal law.
