A tenant must make this request in writing. The tenant's written request should be delivered to the landlord through the same means that rental payments are made. In making the written request, the tenant may request the installation on applicable windows within the unit itself and within any applicable windows that are in common areas that the unit has access to. Window guards are not required on windows that serve as fire exits or that are not designed to be opened. This shall apply to buildings which have 3 or more apartments, in a condominium, cooperative, or mutual housing. Once installed, a tenant shall not take down, change or remove

any part of a window guard. Window guards shall meet the requirements of ASTM F2090-ASTM F2006. Window guards cannot be permanently fixed to the building and shall be able to be removed in an emergency for the safety of the building occupants and firefighters. The Landlord is responsible to install such guards when requested by the tenant in writing as stated. Procedures for Requesting Variances for Window Guards shall be submitted in writing in accordance with the appeal Process of Section 1714.14 of the Allentown Property Maintenance Code.
