- Description of project or scope of services to be provided:

On May 24, 2021, the City advertised a solicitation in which it seeks to obtain the services of an Engineering Firm to perform structural evaluations for Emergency and Non-Emergency call outs, as needed, to make structural assessments and evaluations on commercial and residential properties in the City of Allentown. On June 14, 2021 the technical opening was held and the City received four (4) proposals. The Evaluation Committee gathered on June 22, 2021, in order to review and score the Technical Proposals followed by opening the Cost Proposals thereafter. After the initial discussion, the committee members scored accordingly based on Ability to meet RFP Requirements (35 Points) and Prior Experience/Team Member Qualifications (35 Points). Barry Isett and Pennoni Associates both received the highest scores. On June 24, 2021, the Evaluation Committee gathered for a second time, in order to review and evaluate the Cost Proposals. After the initial discussion, the Committee members scored accordingly based on the Cost Proposal (30 Points). Base Engineering had the highest score for the cost proposal; however, their cumulative score was not as high as Pennoni and Associates. At that time the Committee made the recommendation to not proceed with Oral interviews/Presentations as they felt confident in deciding with the information provided in the Technical and Cost Proposals. At this time the Committee is recommending award to Pennoni and Associates, Inc. as the highest scored firm.
