WORK HISTORY

10/2022 to Current - **Arborist Representative**

FA Bartlett Tree Experts – Emmaus PA

- Consistently met or exceeded job performance expectations, earning positive reviews from both clients and supervisors alike.
- Managed project timelines effectively to ensure all tasks were completed within allocated timeframes, resulting in satisfied customers.
- Trimmed and removed tree limbs in contention using safety measures.
- Improved client satisfaction by providing expert advice on tree care and maintenance best practices.
- Increased property safety through the removal of hazardous trees and limbs, reducing potential damage risks.
- Performed basic tree pruning, watering and fertilizing.
- Cut back and trimmed bushes and hedges to support well-designed landscapes.
- Supported emergency response efforts after natural disasters or severe weather events by clearing debris or removing damaged trees quickly and efficiently.
- Demonstrated tree-health science experience by delivering fact-based solutions to specific arboricultural concerns.
- Identified and tended to tree diseases.

- Educated clients on proper watering techniques, leading to healthier trees with fewer instances of drought stress or overwatering issues.
- Developed customized tree management plans for clients based on their specific needs, contributing to long-term tree health and vitality.
- Preserved tree structural integrity with proper pruning techniques, promoting healthy growth patterns.
- Enhanced tree health by identifying and treating various diseases and pest infestations.
- Reduced environmental impact by employing sustainable arboriculture methods in daily tasks.
- Maintained industry knowledge through continued education courses, ensuring up-to-date expertise in arboricultural practices.
- Performed soil tests to determine nutrient deficiencies or imbalances in order to create tailored fertilization plans for optimal tree growth.

03/2020-10/2022 - **Plant Health Care Specialist**

FA Bartlett Tree Experts – Emmaus PA

- Identified and tended to tree diseases.
- Educated clients on proper watering techniques, leading to healthier trees with fewer instances of drought stress or overwatering issues.
- Enhanced tree health by identifying and treating various diseases and pest infestations.
- Reduced environmental impact by employing sustainable arboriculture methods in daily tasks.
- Performed soil tests to determine nutrient deficiencies or imbalances in order to create tailored fertilization plans for optimal tree growth.
- Enhanced tree health and longevity by conducting detailed assessments and applying targeted treatments.
