The revitalization of Allentown, the third most populous city in Pennsylvania, is critical to the overall health of the Lehigh Valley. The ANIZDA is uniquely positioned to positively impact and further the commercial (and hence economic) development of Allentown through its oversight and approval of those projects within the NIZ. Commercial development is one leg of the stool upon which the success of Allentown rests (along with education, health and human services, arts and culture, etc.). My interest in joining the ANIZDA, as with my involvement in a number of other Allentown-related organizations, stems from a personal commitment to help improve the community in which I and my family live. I believe my background in law, business and community service allows me to bring governance, project development, financial and general management expertise to ANIZDA's role and oversight function.
