SIMULATION TRAINING

FAAC INCORPORATED
LAW ENFORCEMENT DRIVER TRAINING SIMULATORS

REAL EXPERIENCE. REAL TRAINING.

DECISION-MAKING DRIVER TRAINING

FAAC is dedicated to providing the highest fidelity in training products on the market. Our core focus is simulation technology that provides your officers with a life-like virtual training environment. Understanding your training objectives and budget, FAAC works with you to develop your optimum training solution.

FAAC's pedigree in professional driver training simulation is unparalleled. FAAC maintains a comprehensive in-house team to support the Public Safety market. We focus on a Customer-for-Life philosophy to understand, develop, deliver, and support your specific training program.

Advanced Training Features to Meet Stringent Training Objectives

- Basic, Advanced, and Remedial training capabilities
- Accurate replication of vehicle driving compartment
- Over-the-shoulder 225° field-of-view virtual world perspective
- Comprehensive library of plug-and-play training scenarios
- Advanced Tactical Instructor training tools including After Action Scenario review Re-Play/Re-Drive/Synchronized Live Video
- Use-of-Force Cross-Training

MORE PERFORMANCE.
BETTER TRAINING.
LOWER PRICE.

THE LE-1000

The FAAC LE-1000 is an advanced training system developed for tight budgets and short acquisition turn around times. The LE-1000 is available in a standard production cab hardware configuration or in an agency specific cab hardware configuration.

STANDARD FEATURES

- Advanced vehicle dynamics models
- Geometrically correct 225° field-of-view virtual world display
- Passive Radio System
- Emergency Light/Siren unit
- All-in-one Instructor Operator Station
- Training Curriculum Scenario Package
- Linked response scenarios
- Fixed facility or mobile compatible
- Compatible with MILO Range Use-of-Force Simulation system - DrivingForce
- 12 month warranty included

OPTIONAL FEATURES

The following options are available:

- Simulated Mobile Data Terminal (SMDT)
- After-Action Scenario Review System (AASR) with synchronized live video and audio playback
- Advanced Tactical Instructor Package (includes AASR/SMDT/Active Radio)
- Apple iPhone/iPad/iTouch APP for remote instructor controls
- Rabbit/flying eyepoint
- Multi-simulator network
- Active Radio

THE LE-1000C

The LE-1000C is a customizable, advanced training system for those who want to tailor the driving simulator to their own fleet.

The LE-1000C is available in custom cab configurations.

DRIVING FORCE

**MILO
RANGE + LE-1000**

THE ONLY FULLY INTEGRATED DRIVING AND USE-OF-FORCE SIMULATOR: DRIVINGFORCE

Industry leaders in driver training simulation (FAAC Incorporated) and Use-of-Force Simulation (MILO Range) have combined their capabilities in immersive hands-on training to bring you the ultimate in law enforcement officer education.

Nothing more closely matches the scenarios officers face during a patrol cycle than the compressed situational dynamics of a DrivingForce training exercise.

Officers will do exactly the same things in the training room that they do on duty: receiving and responding to a call in their patrol car, conducting an investigation or a field interview, making a simulated arrest, or even implementing a level of force necessary to gain compliance from a subject. The most valuable component of this combined training is that it takes the officer from the beginning to the end of the call in a single training exercise.

DRIVING FORCE: RAISING THE BAR IN TRAINING

FULLY INTEGRATED DRIVING/FORCE OPTIONS SIMULATION

ELEVATED IMMERSION

SIMULATOR-TO-SIMULATOR INTEGRATION

SCENARIO MATCHING

ONE COMPANY - ONE COMBINED TRAINING SOLUTION

Render complex decisions and engage in intricate responses under conditions of time pressure, high stakes, and stress-induced physical discomfort.
