The bill will increase the efficiency of the Public Works Department by reorganizing positions.

Moving the Public Works Operations Manager to the Engineering Bureau will assist with the maintenance and development of the strategic alignment of processes involved with projects and grant opportunities available to the Public Works Department. The Operations Manager will continue to supervise all Public Works office managers and complete Public Works audits as required.

Since the Operations Manager will retain the more complex reporting responsibilities, the remaining tasks will allow this Streets Bureau position to be reverted to an Office Manager, as was previously done at the Streets Bureau.

After an internal review, the positions of Office Manager in the Bureau of Compliance no longer requires a full position status. The recommendation from the Public Works Director is to combine both the Office Manager in the Bureau of Compliance and Building Maintenance into one full-time Office Manager position.

- **Financial Impact – Please include the following in your explanation:**
