*Melony MSP*

#### Reason Transfer is Required:

To purchase a HoverJack Air Patient Lift to transport bariatric patients who have fallen up onto the EMS cot. This one cot will be kept in the Supervisor's van and brought to the site for use when needed. This will supplement the new automatic EMS cots to eliminate the heavy lifting of patients by first responders. This will help reduce worker's compensation claims due to back injuries.

#### Reason Funds are Available for Transfer:

These funds will come from funds budgeted for miscellaneous safety equipment and training materials. The NFAP 70E electrical training that was budgeted for will be postponed until next year as this purchase will take priority.

### TRANSFER AUTHORIZATIONS WITHIN & BETWEEN PROGRAMS

<input type="checkbox"/>	Amount not more than \$5,000.00		
<input checked="" type="checkbox"/>	Amount is greater than \$5,000.00

## HoverJack® Air Patient Lift

Recognized as the industry standard for safe patient lifting, the HoverJack Air Patient Lift allows caregivers to safely lift patients who have fallen without gathering a lift team. The HoverJack consists of four chambers that are inflated sequentially to lift patients from the floor to bed or stretcher height in a supine position, maximizing patient comfort and minimizing the risk of injury to both patient and caregivers.

And once the HoverJack lift is inflated, the HoverMatt air transfer mattress can be used with the same air supply unit for safe and easy lateral patient transfer to a bed or stretcher.

### More outstanding benefits of the HoverJack Air Patient Lift:

- Minimize staff members needed to safely lift patients who have fallen
- Control height through individual chamber inflation
- Self-sealing inflation valves for ease of use
- Quick release deflation valves to lower patient if needed
- Teflon® bottom allows for easy movement across all surfaces
- Available in two widths with a weight capacity of 1200 lbs. to accommodate most patients

HoverTech prides itself on being innovative and developing products to meet customer needs. If you have a problem and would like to discuss solutions, please give us a call or contact us.
