Michael Kaminski, 779 Benton St.

“With the reduction of cases of COVID - 19 statewide in recent weeks, and particularly the low number in Lehigh County, what is the time frame for Parks and Recreation to put the rims on the backboards in our city parks? Most suburban parks have their rims up, and our young adults are traveling to them to play. Also, the city of Reading has rims on half of the available backboards in a park at this point, and have had them up for sometime now. Let’s do the right thing for our young people in the city, and start making progress on getting some of our rims on the backboards and operational. They have sacrificed a lot since the beginning of this pandemic, it’s time to start getting recreation in the city moving towards the way it was again.

Thank you for your consideration of this request.

Tyler Fatzinger, 512 North New Street

Hello, my name is tyler fatzinger I live at 512 north new street in Allentown. Recently I took it upon my self to start cleaning a local cemetery organize mowing events, washing tomb stones, standing up fallen tomb stones and restoring the cemetery records that are gone. As a young man with a young family I should not have to do this, but I choose to because of the countless family members that are disturbed by the condition of the cemetery for the last 25 years. the cemetery has many collapsed graves flipped tomb stones that are hidden by long thick grass for a good amount of the season. Here follows a lengthy but not complete list of notable individuals who reside in Fairview cemetery on Lehigh street in Allentown for the record.

Frank N.D. Buchman nominated for the Nobel Peace Prize in 1952 and 1953

Henry nadig first horseless carriage 1889
