Allentown, Pa. 18101

Minutes - Final

City Council

Wednesday, May 6, 2026

6:30 PM

Council Chambers

Invocation:

Pledge to the Flag

Roll Call

Present: 7 - Cynthia Mota, Natalie Santos, Ce-Ce Gerlach, Candida Affa, Santo Napoli, Jeremy Binder, and Cristian Pungo

Courtesy of the Floor

Please observe the Rules of Council when given privilege of the floor. A copy of the Council Rules can be found on the council agenda on the website. If you would like to speak, we are asking that you fill out a card – they are on the back table provide them to the clerk before speaking. Include your name and address. When speakers have the privilege of the floor, personal insults, attacks, name calling or other behavior that is inconsistent with the purpose of conducting official business will not be tolerated.

Courtesy of the Floor is meant to provide public comments on items that are not on the agenda. Public comment during consideration of ordinances, resolutions and motions are limited by topic – your comments must be relevant to the subject matter of the proposed legislation. Public comments are taken before council votes on legislation.

You are given the privilege of the floor to provide public comment; it is not a question and answer session. State your position clearly and concisely for consideration. If you speak on behalf of yourself, you have three minutes and if you are speaking on behalf of a group that has several members present, you will be given five minutes in place of everyone coming to the podium. Please address the Council President not individual councilpersons or city staff. Refrain from insulting or defaming staff, officials, and the public; refrain from using offensive language, cursing, and making noises while other people are speaking. Please be aware that comments and/or behavior in violation of these rules will result in a forfeiture of all remaining time and you will be asked to return to your seat.

Mr. Santo Napoli stated that ok, great. He stated that they will kick this off with Courtesy of the Floor. This is for non Agenda items. He stated that anything you would like to speak about that is not on tonight's agenda, just

make sure you fill out a card. He asked do we have any cards.

Ms. Genesis Ortega stated that they do not have any Courtesy of the Floor.

Mr. Santo Napoli stated ok. He stated that they will move along. He stated that there will be Courtesy of the Floor opportunities during the Agenda items as they move through our Agenda. He stated that they do not have any Contracts for final approval.

R64

A Resolution Requiring An Audit And Review Of The Mayor's Traveling Expenses And An Independent Review By An Auditor For Compliance With All Relevant Statutory Provisions

Sponsors: Affa, Mota, Gerlach and Napoli

Attachments: [R64](#)

Mr. Santo Napoli stated ok, thank you. He asked if there were any comments from the administration.

Mr. Frank Kane stated he has a statement and asked does Mr. Napoli want him to speak first.

Mr. Santo Napoli stated sure.

Dr. Cynthia Mota stated that usually Council goes first, unless.

Mr. Santo Napoli stated ok.

Dr. Cynthia Mota asked would you like.

Mr. Santo Napoli stated we can go first, but he doesn't think it matters so let's do. We will go first. He asked if there were any questions or comments from the dais on R64.

Dr. Cynthia Mota stated that she has a comment.

Mr. Santo Napoli stated go ahead.

Dr. Cynthia Mota stated good evening this Resolution is straightforward. It cause for a complete accounting of the mayor's travel expenses, including receipts, records, and total costs to taxpayers. While some information may already exists, it is often presented in pieces or without full context. This Resolution ensures a clear and consolidated review. Residents also have the right to request this information through the Right to Know process. She stated that they recognize that travel can be a part of the mayor's official duties, however, when public funds are used, those expenses must be clearly documented, reasonable and in full compliance with law. She stated that she wants to be clear, City Council has the responsibility to provide oversight. SHe stated that responsibility require them to review how taxpayers dollars are spent. This is not about accusations, rather it is about accountability, transparency is not optional in government. She stated that it is fundamental and if they are not willing to stand for the transparency, when they need to seriously reflect on what they are here serving in the first place. She stated at the end of the day, this Resolution is not complicated. She is simply asking for the public disclosure of funds. Thank you.

Mr. Michael Hanlon asked if he can say this to be sure, he took out the ethical provisions in the Resolution, but he forgot to take it off the Agenda. He stated so that shouldn't be there. He stated that is his mistake.

Mr. Santo Napoli asked if there were any questions or comments from the dais. He stated go ahead Mr. Binder.

Mr. Jeremy Binder asked if it wouldn't be acceptable, he would appreciate hearing from the administration just before he asks some questions stating that it would help him with some information, if that is acceptable.

Mr. Santo Napoli asked if anyone else wants to go first.

Ms. Candida Affa stated that she will hold her comments.

Mr. Santo Napoli stated agreed. He asked anyone else. He stated Mr. Kane, you are up.

Mr. Frank Kane stated that it is a couple of minutes so please bare with him. He put together a little statement. He stated that part of the mayor's job is to promote the city. The city of Allentown benefits from having a proactive mayor who is quite possibly this city's biggest fan. He spends all weekend, every weekend on his personal social media, crisscrossing the city, interacting with residents, making himself generally available. That's how our mayor approaches the outreach portion of his office. He stated when he first came here, he became aware, he didn't know and he never met a mayor who did this. He stated that every time somebody buys a house in the city, they get a knock on their door for the mayor. Last weekend, he knocked on a door of a young man in his 20s who lived in Allentown, worked hard and saved up and bought a house stating that the mayor on his door this weekend and the entire extended family who was their was doing a blessing of the house. They have the memory of the mayor knocked on their door stating that is the way he approaches his social media and the way he approaches his job and so he likes to keep that in mind when they look at the mayor's traveling and networking. As he said at the opening, part of every top executives job is to be the face of the organization. In the public sector, every governor, every mayor, every county executive is the human face that they put on the government. In order to most efficiently move the organization forward, it is important for someone in the organization to create, maintain, and nurture relationships with potential funding partners in the federal and state government and in the nonprofit sector. The Commonwealth of Pennsylvania for a reference maintains 13 overseas trade offices that covers more than 40 countries that are staffed by contract employees whose total cost is probably a few hundred thousand dollars annually stating it is hard to calculate stating one of his former bosses, Lehigh County Executive Bill Hansell was the president of the ICCMA (International City County Management Association). One of the professional organizations that they belong to. He travelled extensively during his time as county executive and was also one of the first managing director of Allentown under the 1969 Charter. He served here from 1970 to 1973. His most recent boss, Lehigh County Executive Phil Armstrong used to travel all the time. Raising the profile of

Lehigh County on the national scene. He ended up in leadership positions that brought money and brought notoriety back to our area in the White House and other places. He stated that they belong to CCAP, the County Commissioners Association of Pennsylvania. They all had to go. Staff had to go to all of their committees and was at the forefront of lobbying and at the forefront of new policies that were developed to benefit counties. He stated that he is old enough to remember that some of the things that they now consider the crown jewels of the Lehigh Valley came into existence through these kinds of networking and trade organizations. The Wind Creek Casino, started out as the Sands and it is here because someone knew Sheldon Adelson in a relationship that started with the PA League of Cities and Municipalities which is now the US Conference of Mayors. Coca Cola Park is here because among other things, some community leaders met the owners of the Trenton Thunder through networking in Jersey. He stated that he told them that to tell them this, as the elected representatives of the voters and the taxpayers of the city of Allentown, you have every right to ask questions of this administration and it is their responsibility to answer them, even if it is uncomfortable, especially if it is uncomfortable. It is a foundational component of American democracy that citizens can hold their government accountable. As traditional press morphs into the less traditional blogosphere, it is important that they listen to those voice too. If some segment of the public has concerns about things related to travel of the mayor and the staff in that office, it's because they haven't done what is necessary to brief all of them and the public. People should know how their money is being spent and feel good about it. He stated that he is going to try to do that now. He stated first of all, they have a great Controller, here. The items that your Resolution called for are things that the Controller does routinely and in a rare case, there is an inconsistency, consistently he brings it to you, but every travel expense is audited by the independently elected Controller as a matter of routine. He stated that Mr. Glazier is not here today. He can't be with us today so out of deference to him, he is going to give him a chance to look at the numbers that he would like to present to them before they actually give them the packet of all the information, but that is something that happens anyway. He stated that he took a preliminary look at all of the expenses and they are minimal and stated here is an example. He is reasonably comfortable reporting that the entire travel and professional development budget spent for the mayor and his staff in 2022 was \$5,748.22 stating \$5,748.22 out of a budget of \$240 million. As Managing Director, he hopes they never make a math error, but that is kind of a rounding error against that size of a budget. He stated that this body just considered four Budget Transfers this evening, earlier in the Agenda and they were all greater than that. He asked what does the residents of Allentown get for their \$5,748.00 in 2022. In 2022, Mayor Tuerk met Pete Buttigieg at the US Conference of Mayors on a trip to Washington, DC. Hear him tell it, he grabbed Pete Buttigieg by

the lapels and said Allentown needs help. People are dying, send us money and so they did. They received \$312,000 for Safe Streets and then a \$384,000 Demonstration Grant and \$1.1 million for Traffic Safety Planning at Tilghman Street and Union Boulevard which is the single most dangerous stretch of road in the Lehigh Valley. Are that for an investment of \$1,500 for a conference fee and some minor anserary travel costs. The networking and relationship building isn't really, it is not tit for tat one time transaction. He stated it is not he goes and meet donors and come back and they fund him. He stated you go once and you go again, you get to know people and get to know more people. It is just like any other type of networking. Attending events hosted by the US Conference of Mayors, it puts our mayor in rooms with policy experts and mayor who are working on the challenges that face cities across the nation. Housing, infrastructure and economic availability. Out of that organization, we also received the \$50,000 grant from the US Beverage Manufacture Association at the end of 2022. It is called Move with the Mayor to promote physical activity among our residents, but all this networking broadly created the opportunity for success with our ReCompete Grant. He stated that he doesn't want to take away from the hard work that lots of people in this community put into bringing that \$20 million federal investment to Allentown, but the US Conference of Mayors put our Mayor in the room with the Assistant Secretary EDA and gave him the opportunity to talk through our application with her and that helped push them over the finish line. He stated that is what they paid for. Let's look at what we get from free. He mentioned during his confirmation that he was surprised about the quality of their department heads. It turned out that many were trained by Harvard. Many of our department heads had received training from Harvard in the areas of data management, talent attraction and retention and general workforce management paid for by the Bloomberg, Harvard Partnership. The mayor has attended three Bloomberg City Labs with staff. They are 100 percent paid for by (inaudible) organizations and he meets with mayors from all over the world who was facing similar challenges and comes away with ideas. He stated that Council has approved \$160,000 in receipts for Love Your Block which is a resident lead initiative to improve public spaces and resident porches and other things. The goal of that program is that it will outlive the money. The way that they approach interacting with our residents and the way that we listen to what they want and then allow them to lead the discussion is something that would become part of the way the city does business. He stated that they have the Youth Climate Action Grant for \$200,000. They have the Rockefeller Foundation's Excellerator for America \$250,000 grant to help with ancillary needs around ReCompete and broadly the take away here, is that their mayor's networking effort to take him and some staff out of the area occasionally from time to time to provide 10s of millions of dollars in benefits to the taxpayers at a very nominal cost. If he was the VP for Marketing for

Fortune 500 Companies and saw those numbers, he would say why is this guy ever here. Like, keep him on the road. There is no better investment of a dollar and there is no better return than what he brings back when he is doing this kind of networking. He stated that he thinks that they should keep in mind that the social media that you see is his personal social media. When he went to Madrid, it was paid for by Bloomberg, and at personal cost, stayed an extra day to run in the marathon. He stated perhaps they can do a better job in making that clear. He stated as far as the audit, they already do this audit. That is what the Controller does. He stated that they have all those receipts. They have all those things and don't know why you would want to pay an independent auditor \$40,000 to \$100,000 to do a forensic audit to audit what they already audit. He stated that you could choose to, but you will be auditing and paying the same amount that they paid in travel expenses in four years to do the audit. He stated that it is a credit to Allentown that these organizations choose our mayor. They don't choose Matt Tuerk, they choose the city of Allentown. It is the city of Allentown that is represented. It is the city of Allentown seat. The city is finally receiving he thinks the recognition that we deserve as the third largest city in Pennsylvania and it is not just you know and he would say it is not just and a lot of intangible benefits that come and asked have you ever seen when you know when there is a Western Movie and in every studio, there is a western movie because that's all in that Echo Chamber, Allentown is in that Echo Chamber now with all of those nonprofit grants stating we get mentioned, people talk and the New York Times with major publications and he thinks it is a good and they can do a better job of explaining and if he has to give them this explanation because you haven't heard it before, but he hopes they will continue to be transparent. He stated that he will be transparent and he has four years worth of receipts, but between Eden and Munis and with the Controller not being here, he just wants to sit with him before he releases them to Council, but you already have them. He stated that it looks to him that they under-spent the travel budget in three of the four years in the first term budget that you all allocated. He stated that they will provide that to Council as soon as he gets to meet with the Controller and you will have everything you need. If you want to come in and look at receipt, he suggested they look at the receipts. He stated that he doesn't know why they would engage in another firm and pay them the money you asked them to do that. He stated that is their position and he is happy to answer any questions. He stated that you are going to count on you and they can help share this information in a more timely manner or in a more consistent manner.

Mr. Santo Napoli stated ok, thank you Mr. Kane. He stated that most of his colleagues know, but just for public record Mr. Glazier is recuperating. He has been out the last few days and he is unfortunately able to attend tonight, but he will be back to Report on this issue and to provide his insight as

soon as possible. He stated back to his colleagues, and asked Ms. Affa go ahead.

Ms. Candida Affa stated while she appreciates the Report on what he does in Allentown. Why he isn't here or hasn't in the past four years that she can remember reporting on anything or all the things that he was telling them about. He should be here telling Council that and not only just tonight, it should have been after every time he goes out of town. She stated that Council would like to have a Report on what he brought back to Allentown from all these expenses. She stated now, it is a simple ask what they are asking. She stated they just want and she believes Mr. Hanlon made a, and stated you are not going to do the audit thing, right.

Mr. Michael Hanlon stated that he made a mistake in terms of not taking the preference ethical provision out there. He stated that his understanding when they got a Report from the Controller and if you were ok with that, they will do an audit. To have your auditor do that you would need a new Resolution to authorize that expenditure.

Ms. Candida Affa stated alright, it is a simple ask stating that the taxpayers want to know. She stated that it is Council's duty to get the receipts and find out. She stated that is all she is asking. She stated that they are not making any accusations, but the only thing she would have to say here is he does not Report. She stated that she doesn't remember as long as she been here with him, one Report stating what they just gave a very detailed Report. She stated not him, you. She stated that her question is why doesn't he come here. She thinks Council should start with this ask. She stated every time he goes away, she stated that they want a Report whether it is verbal sitting there or a written Report. A written Report will be really great and these are simple asks. She stated that we are not trying to ask him or crucify him and not do any of the above, but we have the right to know you gave us an idea how much you brought to the city. She stated that they want to know how much it cost them for him to go and get everything he brought. She asked is it worth it, did we make any money. Is it a good idea. She stated that is all they are asking. She stated that they are not asking for much more than a Report from our City Controller. That's it.

Mr. Frank Kane stated that they will be happy to do that. He stated that he has not been here for four years, but they will do it now.

Mr. Santo Napoli stated Ms. Gerlach go ahead.

Ms. Ce Ce Gerlach stated that she thinks residents would love to here all that. She stated that residents would love to know that their mayor is off

learning and networking and bringing back valuable resources. She stated that she would be proud to share that.

Dr. Cynthia Mota stated no doubt about that.

Ms. Ce Ce Gerlach stated for her she signed on to this Resolution not in like a hey, let's gotcha thing. More so like we just finished, not just finished, but they went through a budget season in which they had to raise taxes. She stated that many folks voted to raise taxes. She stated that they will more than likely be in that same scenario and it is an optics thing. Sometimes it is just communication. When you got people who is struggling between buying bread and their meds and they go on social media and they see their mayor in a foreign country running a race, yeah, um, it is optics. She stated so if in fact it is being paid for by Bloomberg, let's talk about how wonderful it is that we got Bloomberg paying for him to go Network with folks. She stated that she thinks it is great and she thinks it is especially now that they have a Managing Director stating if you look at the dynamics on here. The mayor supposed to go out and be the figure head and do the networking and the kissing babies and all that kind of stuff and then the Managing Director supposed to be here running the city. She stated that is how it works and now they have that dynamic, it is great. She stated that she looks forward to learning all of the wonderful places that our mayor goes and all the resources that he brings back to the city and she is sure that the residents are also look forward to that. She stated that the end game goal is that regardless of the language of the Resolution, that is the goal. She stated if they just want to learn and there could be some of these wonderful organizations that would also be opportunities for us Council people to go off and learn and network. She stated that she is sure there are.

Mr. Frank Kane stated that they used to do that at the county stating everybody went to seek many of their Commissioners stating that it seems to him that it makes sense.

Ms. Ce Ce Gerlach stated yeah, and maybe, it would be great to know which city employees also have had these opportunities. These wonderful networking opportunities made available to them and the wonderful, valuable skills and insight that they also had brought back.

Dr. Cynthia Mota stated definitely.

Ms. Ce Ce Gerlach stated and how we benefitted from that.

Dr. Cynthia Mota stated that it is a simple ask. She stated that they are not, this not and she doesn't think that it is something negative. Sometimes she

feels like she is being crucified just because she is asking and it is not she means they are elected officials here and they have to make sure that they are a good steward of taxpayers money and again, all she is asking is just receipts. She stated that is all she is asking and again, she thinks that and agrees with Ms. Gerlach it would be good to find out the places, and who is more than willing to pay for those trips so that they can all take advantage of that and rub elbows with wonderful people with a lot of money so they can bring it here to the city of Allentown. She stated that it is a simple ask. It is just a simple ask and again, she know they have a Controller that she has a lot of respect a lot, but the reality is every time she ask, they get bits and bits of pieces. They don't get the whole you know, the whole pie and they just want to know.

Mr. Santo Napoli stated Mr. Binder go ahead.

Mr. Jeremy Binder stated so a couple of he guesses a couple of comments on this Resolution that came through. He stated that he completely agree with everyone. He understands the value that comes with networking with different organizations. He stated that he thinks universally everyone in this body is probably faced with similar questions with a resident saying where is the mayor today. What is happening with this. He think they are fair questions and part of that probably that the root of this Resolution is to try and find that information out. He stated that he thinks they hit the nail on the head on this. He stated the theme of communication is a frequent thing that is coming up stating again, he is optimistic that you are working on that. He stated that he thinks frequently it's assumed that because some things posted on social media that it is being communicated, but he believes that in a public forum like this is a much more and could be articulated differently and it's recorded. It makes it a little more factual. To that said transparency, accountability, they are all on the same page. He stated that his concern with this Resolution is that what they are doing, they are not going to get there with it. This is an Audit Resolution isn't going to get them the information they are actually looking for. Effectively what they are saying is that the Controller's doing their job their job and that he takes issue with because he doesn't think that they are not finding information. He believes they are when there is a discrepancy they are presenting the details when they give the Controller's Report and if a lot of this information is funded through a Bloomberg to another entity. They are not going to see that on an Audit Report. He stated that is not a transaction that is coming through the Budget Line Item. He stated that is (inaudible) being provided. He stated that his concern at the end of this is they are going to get a Report that says pretty much exactly what the Controller is saying that there was an amount of money in the budget and that budget was spent on these things and here are the receipts for it and then it is going to close. He stated that he is concerned in the language of this stating they used the

word shall for the independent audit which is initiating that they must then send it out to someone at an amount of money that he is not sure what it is going to be and it concerns him that they are going to spend more money to duplicate the effort of what the controller's doing. He stated that he says all this to say he thinks they all want the same thing. He just doesn't think it is the language to get us there. It sounds like what we are looking for at least in hearing everyone is a public presentation from a Controller's perspective and from the administration's perspective. He stated that he thinks the frequency of that, 15 days seems aggressive to provide that information and open to whatever that looks like. He thinks it is something more of a semi annual thing to give them a lot better picture. He stated that he completely agrees that presenting this information more frequently will go a long way to both meeting the needs of what the public asking as well as what Council is asking for, but at the end of the day, this body approved a budget and his understanding based on the Controller is that they are within that budget, so if the concern is maybe they are not seeing the return on investment for some of these meetings, then it is incumbent upon us to say budget time next year, maybe this budget isn't worth fulfilling, but that is something they need to evaluate and he thinks that feedback comes from when the have a presentation. He stated that he just doesn't see this get us there and he thinks the other concern on this is our Controller hasn't even had the opportunity to speak to this tonight. He stated that he is basically making an entire document here saying that the Controller's and stated that he would love to see input from the Controller to at least say, hey this is what's happening. He stated that he thinks he may have a Motion to put forward on this one, but would like to if it's ok and asked to hold on for a second for that. Not to hear if anyone else had any comments or thoughts and then go from there.

Mr. Santo Napoli stated Mr. Pungo, go ahead.

Mr. Cristian Pungo stated that he understands everyone's sentiments here. He stated that he definitely echo the fact that they all want transparency, accountability, and he said this a couple different times at different times at committee meetings or Council meetings, but he gets away with saying he wasn't here before so he doesn't know if they ever actually made the ask. He stated that it is important for them to make the ask and say hey, look every time the mayor travels, we want to see a Report. He stated let's ask for that. Let's say hey, let's get a Resolution and if that obviously doesn't achieve that, but if they want to say every time he travels, he comes and provides a Report out whether that is 15 days or 30 day whatever. He stated that is up for discussion. He stated that he sees the validity in that and to Councilperson Gerlach's point, he thinks the city would love to hear about all the stuff that is going on and he thinks that in of itself is one portion of it. He stated to Councilperson Binder's point, he agrees and have

concerns with the independent audit just cause realistically if an audit all it does is verify the validity of documents and so he trust in his Controller to receive the documents now if he finds inconsistencies, he supposed to highlight them and bring them up and so his concern again similar to Councilperson Binders for doubling efforts and paying thousands of dollars for someone to tell them what they already know. He stated that being said that of the Resolution four bullet points as it is currently written that is item number four so that will be the only thing that he is necessarily against because otherwise the first initial audit requirement is the Controller basically gathering those funds and he thinks if they gather the receipts and we can provide like a detailed Report. He thinks that essentially achieves what they are looking to find and if forever reason they feel like there is something missing stating they could always asked the administration, but the intent is what could they do to get a full picture of what's going on. He stated that he doesn't think anybody is opposed to that getting the full picture of the expenses being incurred. He stated that for him if they were to vote on this Resolution, he would want to drop that fourth point because he doesn't truly see the financial benefit to the city of Allentown on spending thousands to prove what they already know. Thank you.

Mr. Santo Napoli stated thank you and asked if there were any other questions or comments from colleagues.

Mr. Michael Hanlon stated (inaudible).

Dr. Cynthia Mota stated funds.

Mr. Michael Hanlon stated you will have to go back.

Mr. Santo Napoli stated understood. He stated that it will be a chance for public comment. He stated to Mr. Kane that he thinks this echoes what they heard which goes back and he will say what others will say. He stated just a lack of communication and he can tell them that back in February, he believes stating that it was one of February's Council meetings, he really pushed Mayor Tuerk to tell them about his last trip. He asked if you remember and stated you weren't here, but he talked about reading at kid's schools and then he talked about something else which was all great content, but then he finally got into the did he do in his last trip. He stated that it feels like pulling teeth sometimes and he stated that he doesn't understand why because to Ms. Gerlach's point he is doing work out there that is beneficial to the city and out residents nand for whatever reason he is not sharing it which is odd because there is so much positive coming out of it. He stated so he definitely agrees there needs to be more because they want to understand what he is learning and the impact that of our residents.

Mr. Frank Kane stated that yeah, Mr. president, he cannot and tell them he has here with him today he has the past four years of what he is pretty sure of all the expenses. It was the first thing that he did in Munis in his system himself. He would like someone else to see. He would like show it to the controller. He stated that any of them are welcome to look at it after the meeting. He is not comfortable with releasing it officially, but you all can look at it. He stated that he has to tell them that a guy that worked for Ed Rendell and lots of politicians, Matt Tuerk is the most boring politician he has ever seen. He stated that he brought a heath bar at the airport a couple of years ago and he had a dinner for \$6.86. He stated that is what's in here and airfare and hotels and memberships and conference fees so you all are welcome to see it. He is planning to provide everything that they asked for as soon as he knows it is actually the entire document. He wants to make sure stating he doesn't know about other line items so they just want to make sure.

Mr. Santo Napoli stated ok and stated that you were flying through your presentation, but just to be clear, the one year was \$5,000. He asked was that last year, 2025.

Mr. Frank Kane stated no, he thinks that was 2022.

Mr. Santo Napoli stated that he wants to make sure that they all heard the numbers, correctly because.

Mr. Cristian Pungo stated that he heard 2025.

Mr. Santo Napoli asked is that what it was.

Mr. Cristian Pungo stated that is what he heard.

Mr. Frank Kane stated \$788 he thinks it was. He stated that it was 2022.

Mr. Santo Napoli asked do you have a total by chance. The Resolution called for his entire term. He asked do you have a total.

Mr. Frank Kane stated that he is not comfortable and stated that he has done the search himself. It is the first time he has used Munis himself. He stated that he is comfortable and they all can look at it. He is not comfortable releasing a public number to the podium until some financial people have told him otherwise. There is not another account somewhere else.

Mr. Santo Napoli stated fair enough. He stated that they are going to wait

on Mr. Glazier non that. He stated to get that final.

Mr. Frank Kane stated but they don't total \$20 million so we have done better.

Mr. Santo Napoli stated ok and stated so if there is nothing else from his colleagues, they will go to the public. He asked any members of the public who wishes to speak on this agenda item, R64.

Ms. Betty Cauler, Tilghman Street, stated to Mr. Kane that he kind of went over the travel expenses, but there are also in the budget some \$72,000 for memberships and fees. She asked Mr. Kane is he going to be upfront with that or is he going to be upfront with what the city gets from those memberships and fees.

Mr. Frank Kane stated of course, that's why he said he is not comfortable releasing anything because he searched the line item about Executive Management Training and professional development. He stated when he looks through it with the financial people and the Controller because back then, they are going to reach the totality of everything.

Ms. Betty Cauler stated ok and you only gave um, 2022 as \$5,000. She stated that she t

ORDINANCES FOR INTRODUCTION (To be referred to Committee with public comment prior to referral)

[15-8421](#)

Bill 32

Amending § 425-15. Alcoholic beverages, controlled dangerous substances, solicitation and gambling by prohibiting smoking or vaping any substance within 25 feet of playgrounds, recreational fields and courts (including but not limited to baseball, basketball, football, handball, softball, tennis, volleyball, etc.).

[Community Health Improvement Plan \(CHIP\) - Allentown.docx](#)

Mr. Santo Napoli stated ok and asked if there were any questions from the public on Bill 32.

Dr. Cynthia Mota asked can she.

Mr. Santo Napoli stated we normally don't do it. It is just the public for this.

Dr. Cynthia Mota stated isn't Bill 32 what she is introducing.

Mr. Santo Napoli stated that you are, but and asked Mike is this normally just the public only for this portion. He asked are we changing and stated ok. He stated normally it is just the public, but sure, go ahead.

Dr. Cynthia Mota stated that she wants to take a moment to introduce something that is really important to her stating Bill 32 which will create typography buffer zones around our playgrounds, recreational, fields and courts. She stated that our parks should be played where our kids should be able to play freely and what we are promoting wellness, not a exposing people to second hand smoke or normalizing those habits that were meant for recreation. She stated that this is something that she has been working on for sometime. She stated that she is really grateful for the partnership and guidance of Roberto Monty (sp) and as a matter of fact, he is present in the blue zone. She stated that she sees a few people from their initiative. She stated that this idea aligns so closely with the work that they have been doing. Helping Council think about how small intentional changes in our environment can lead to a healthier outcome for our community and that is really what this is. It is a simple, common sense step that reflects the kind of city they want to be. One that prioritizes health, especially for our children. She stated that she also want to thank her colleagues for their support in helping move this forward. It means a lot to be able to bring something like this to the table and know there is a shared commitment to improving the quality of life in Allentown. Thank you.

Mr. Santo Napoli stated thank you vice president Mota and asked if there were any questions or comments from the public on Bill 32.

Bill 35

Amending the 2026 General Fund budget to accommodate the upgrade of the part-time Clerk III in the Office of Compliance and the upgrade of the two (2) part-time MWI-Custodial positions in Building Maintenance within the Department of Public Works. The part-time Clerk III, currently M08, would be upgraded to an Administrative Assistant at a proposed pay grade of S07 to better align the job duties and responsibilities of this position. The two (2) part-time MWI-Custodial positions will remain in the same paygrade (M06) but be upgraded to full-time positions to better align job duties and allow for consistent staffing in Building Maintenance.

Bill 42

Amending the 2026 General Fund budget to provide for One Hundred Thirty-Six Thousand Three Hundred Nineteen Dollars (\$136,319.00) from the General Fund unappropriated balance to the Fire Department operating budget for additional costs to support a second Fire Academy in 2026.

Attachments: [Bill 42 - AFD Academy Fund Transfer](#)

Mr. Santo Napoli asked if there were any questions or comments on Bill 42.

Mr. Frank Kane stated if it is appropriate, he has someone from the Fire department that would like to speak on this.

Mr. Santo Napoli stated ok.

Fire Deputy Chief (?) stated that they have a second Fire Academy that they are trying to plan out the vacancies that they started this year out with and they are looking at another two possible vacancies. He stated that it is pretty straight forward stating Fire emailed Council on the cost analysis if the wanted to see the breakdown of it. He asked if anybody had any questions.

Mr. Santo Napoli stated not at this time. He stated that this will be sent to our Public Safety Committee to Ms. Affa and if there are any questions at that time, we could address during the committee stated that is it for introductions. He stated that they have no Resolutions for Introduction.
