Ms. Jennifer Gomez, AICP Director of Planning & Zoning City of Allentown 435 Hamilton Street Allentown PA, 18101-1699 RE: 25-27 North 10<sup>th</sup> Street Sanitary Planning Module Resolution of Adoption City of Allentown Lehigh County, PA

Dear Ms. Gomez:

Please find attached the following materials related to the above referenced project:

- Four (4) copies of the cover letter from the Pennsylvania Department of Environmental Protection (PA DEP), dated April 17, 2023;
- Four (4) copies of the standard PA DEP Transmittal Letter for Sewage Planning Modules;
- Four (4) copies of the "Resolution for Plan Revision for New Land Development";
- Four (4) copies of the Project Narrative & Alternative Sewage Facilities Analysis for the project, dated February 5, 2024;
- Four (4) copies of the project Architectural Plan sheets A-100 through A-101, prepared by Schillaci Architects Ltd., dated March 22, 2023, no revisions;
- Four (4) copies of the Will-Serve letter, prepared by Lehigh County Authority, dated January 2, 2024;
- Four (4) copies of the Environmental Review Approval Letter, prepared by the PHMC, SHPO, dated February 8, 2024;
- Four (4) copies of the completed "Component 3" of the Sewage Facilities Planning Module;
- Four (4) copies of the completed "Component 4A" of the Sewage Facilities Planning Module;
- Four (4) copies of the completed "Component 4B" of the Sewage Facilities Planning Module;
- Four (4) copies of the PNDI search receipt for the project, dated December 8, 2023 and associated correspondence dated December 21, 2023.

Upon your review of these materials, I would respectfully request to have the above Resolution placed on City Council's agenda for approval. Upon approval of same, please have the City Cleric complete and notarize the packages for submission to PA DEP. Note that proof of publication/advertisement of the resolution must also be included in the module package, so please include a copy of such as well. A copy of the package included herein may be retained for your records. For your convenience, the forms requiring completion by the City have been placed at the front of the submission package and are outlined below:

- PA DEP cover letter
- Resolution of Adoption
- Standard PA DEP transmittal letter

In the past, we have been made aware that the City may have their own standard resolution format for Sewage Facilities Planning Modules. We have spoken to PA DEP previously about this, and it has been found to be acceptable. However, for your convenience, we have included copies of the standard PA DEP forms should the City chose to use them.

Upon completion of the included copies, please return them to my attention with the proof of publication/advertisement so that I may submit them to Mr. Corby at PA DEP.

Upon receipt and review, should you have any questions or require additional information, please do not hesitate to contact the undersigned.

Respectfully,

Black Forest Engineering, LLC

Joseph E. Rentko, PE

RE: Planning Module for New Land Development Subdivision <u>EMPIRE PROPERTY</u> CONSTRUCTION <u>MULTI-RESIDENTIAL</u> 3570 GPD <u>Cityof Allentonn, Ledigh</u> County DEP Code No: 2-39001302 - 3

Dear:

In response to your postcard application, enclosed are the applicable planning modules required for the proposed development. Please submit the completed planning module and supporting information to the municipality(ies) in which the project is located. The Department must receive <u>3 copies</u>. Please answer all questions. DO NOT answer "N/A" or "Not Applicable". If you find a question does not apply, explain all reasons to support that answer.

A copy of the letter <u>MUST</u> be attached to the planning module when resubmitted through the municipality to the Department. This letter is to be used as a completion checklist and guide to completing the planning modules and does not supersede the rules and regulations found in Chapter 71. The <u>municipality must</u> submit the complete module package to the Department, (see end of letter for certification statement).

Effective December 15, 1995, Act 149 required the Department to assess planning module review fees. This fee is based on the type of development and total equivalent dwelling units proposed. The applicant will be billed upon Department approval or denial of the project.

If you are applying for a planning module exemption for this project, the exemption was not granted for the following reason(s):

## RESOLUTION FOR PLAN REVISION FOR NEW LAND DEVELOPMENT

RESOLUTION OF THE (SUPERVISORS) (COMMISSIONERS) (COUNCILMEN) of <u>the City of Allentown</u> (TOWNSHIP) (BOROUGH) (CITY), <u>Lehigh</u> COUNTY, PENNSYLVANIA (hereinafter "the municipality").

WHEREAS Section 5 of the Act of January 24, 1966, P.L. 1535, No. 537, known as the *Pennsylvania Sewage Facilities Act*, as Amended, and the rules and Regulations of the Pennsylvania Department of Environmental Protection (DEP) adopted thereunder, Chapter 71 of Title 25 of the Pennsylvania Code, require the municipality to adopt an Official Sewage Facilities Plan providing for sewage services adequate to prevent contamination of waters of the Commonwealth and/or environmental health hazards from sewage wastes, and to revise said plan whenever it is necessary to determine whether a proposed method of sewage disposal for a new land development conforms to a comprehensive program of pollution control and water quality management, and

WHEREAS Empire Property Construction c/o Jennifer de Jesus has proposed the development of a parcel of land identified as

land developer

25-27 North 10<sup>th</sup> Street \_\_\_\_\_, and described in the attached Sewage Facilities Planning Module, and name of subdivision

proposes that such subdivision be served by: (check all that apply), 🛛 sewer tap-ins, 🗌 sewer extension, 🗌 new treatment facility, 🗋 individual onlot systems, 🗋 community onlot systems, 🗋 spray irrigation, 🗋 retaining tanks, 🗋 other, (please specify).

WHEREAS, the City of Allentown finds that the subdivision described in the attached

Sewage Facilities Planning Module conforms to applicable sewage related zoning and other sewage related municipal ordinances and plans, and to a comprehensive program of pollution control and water quality management.

NOW, THEREFORE, BE IT RESOLVED that the (Supervisors) (Commissioners) (Councilmen) of the (Township)

(Borough) (City) of <u>the City of Allentown</u> hereby adopt and submit to DEP for its approval as a revision to the "Official Sewage Facilities Plan" of the municipality the above referenced Sewage Facilities Planning Module which is attached hereto.

# Empire Property Construction – 25-27 North 10<sup>th</sup> Street Project Narrative & Alternative Sewage Facilities Analysis PADEP Sewage Facilities Planning Module

## Component 3: Sections F & H

The scope of this project consists of the renovation and rehabilitation of the existing 3-story brick buildings at 25 North 10<sup>th</sup> Street and 27 North 10<sup>th</sup> Street to support thirteen (13) residential apartment units and one (1) commercial/open space. The properties are connected and are the southernmost units of a multi-building row-style length of buildings along North 10<sup>th</sup> Street. The project is located within the 7<sup>th</sup> Ward of the City of Allentown, Lehigh County, Pennsylvania, and is within the Central Business District (B-2) Zoning District. The project area is bordered by adjoiner parcels to the north, North 10<sup>th</sup> Street to the west, Court Street to the south, and North Hazel Street to the East. The adjacent parcels have existing residential and commercial uses, and are all also row-style buildings.

The project site currently contains a vacant building with commercial/open space on the ground floor, and residential apartment units on the second and third floors. In total, there are two (2) commercial/open spaces, and nine (9) existing residential apartment buildings. The project will renovate and retain the existing nine (9) apartment units and one (1) commercial/open space. The second existing commercial/open space (within 27 North 10<sup>th</sup> Street) will be renovated into four (4) residential apartment units. The building is serviced by existing public water and sewer service. However, for the purpose of this analysis and the proposed rehabilitation project, the existing flows are assumed to be zero.

The proposed renovation will enhance the building to support thirteen (13) residential apartment units and one (1) commercial/open space. For planning purposes, we are requesting 15 EDUs of allocation, or approximately 3,570 gallons per day (GPD).

### Existing and proposed flows are as follows:

Proposed Development 13 residential apartment units	EDUs 13
1 commercial/open space	2
	Total: 15 EDUs
Previous Development	
None (Vacant building)	0
	Total: 0 EDUs

NET INCREASE: 15 EDUs (3,570 GPD) TOTAL FLOW: 15 EDUs (3,570 GPD) Note: 1 EDU = 238 Gal/Day This development project will be developed as a "by right" use in accordance with the City of Allentown Zoning Ordinance for the Central Business District (B-2) Zoning District. The City of Allentown, Title Five, Article 940.03(n) states that when a public sewer becomes accessible, the use of on-site sewage disposal systems shall be abandoned. Public sewage infrastructure, including sewage mains and manholes with routing to a sewage treatment plant, currently exists within the public roadway adjacent to the project area. Additionally, the building is already connected to the public sewer system. Resultantly, on-site sewage disposal methods are not a permitted option for this project.

The project site is located within the existing service area of the City of Allentown Collection System. Sanitary sewer flows from this area are conveyed to the Kline Island WWTP as part of the Jordan Creek Interceptor Network as defined in the "**City of Allentown Master Sewer Plan – April 1977**" (MSP). An excerpt from the existing sewer network plan is shown below in Figure 1.

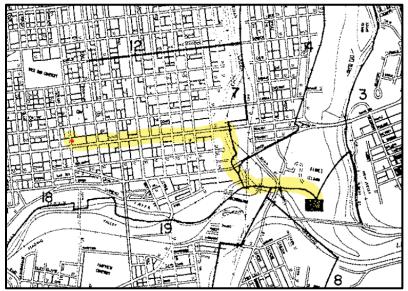

Fig. 1 City of Allentown/LCA Existing Sewerage Map

As indicated in Figure 1, the project site is located within an area with existing public sewer service. This disposal method is anticipated to remain identical within the Act 537 Plan currently under development by the LCA. Additionally, the primary land uses of the surrounding area is residential and commercial properties, which are also served by the City's collection system.

The Kline Island WWTP (NPDES #PA-26000) is currently permitted for a capacity of 40 million gallons per day (MGD). The average reported flows to the WWTP as of October 2023 were approximately 32.3 MGD with 33.4 MGD projected in 5 years. Based on project estimates, the proposed addition of 3,570 GPD by this project will utilize approximately 0.05% of the currently remaining permitted capacity of the WWTP.

Based upon the above information, local Zoning ordinances, the City of Allentown Title Five -Sewers, and previous land use history, the most reasonable method of sanitary sewer disposal for the proposed project is connection to the existing City of Allentown sewage collection system with flows ultimately being treated at the Kline Island Wastewater Treatment Plant in Allentown.

January 2, 2024

Mrs. Jennifer Gomez Planning Director City of Allentown 435 Hamilton Street Allentown, PA 18101

SUBJECT: Land Development – 25-27 N 10<sup>th</sup> Street Will Serve - Water Service

Dear Mrs. Gomez:

Lehigh County Authority (LCA) is willing to provide public water service in the requested amount of 2,392 GPD (15 EDU) to the proposed 13 apartment units and commercial space renovation at 25-27 N 10th Street. LCA has ample capacity to provide water service to this development and the service is presently available in the adjacent streets.

Tapping fees, connection fees, and meter fees are based upon the City of Allentown's ordinances and LCA's schedule of rate fees. Any abandoned lines must be properly capped.

Water service is conditioned upon the following:

- 1. LCA approval of the site, plumbing and fire protection system plans.
- 2. Developer obtaining any road opening permits from the municipality and/or PA-DOT to construct the water mains and/or services.
- 3. Developer executing a Developer's Water System Agreement or a Construction Permit with LCA for construction of the water mains and/or services.
- 4. Developer installation of water mains and/or services in accordance with the approved plans and applicable LCA policies and regulations, including the current General Specifications for Water System Construction.
- 5. Developer compliance with the terms and conditions of LCA's Rules and Regulations for Water Service, including completion of an Application for Water Service and payment of all applicable fees. Tapping fees shall be paid to LCA prior to building permits being provided by the City.

Sincerely,

gacol Hansuber

RE: ER Project # 2024PR00579.001, Empire Property Construction - 25-27 North 10th Street, Department of Environmental Protection, Allentown City, Lehigh County

Dear Submitter,

Thank you for submitting information concerning the above referenced project. The Pennsylvania State Historic Preservation Office (PA SHPO) reviews projects in accordance with state and federal laws. Section 106 of the National Historic Preservation Act of 1966, and the implementing regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation, is the primary federal legislation. The Environmental Rights amendment, Article 1, Section 27 of the Pennsylvania Constitution and the Pennsylvania History Code, 37 Pa. Cons. Stat. Section 500 et seq. (1988) is the primary state legislation. These laws include consideration of the project's potential effects on both historic and archaeological resources.

## **Above Ground Resources**

No Above Ground Concerns - Environmental Review - No Adverse Effect - Above Ground

Based on the information received and available within our files, in our opinion, the proposed project will have No Adverse Effect on the following historic properties: Allentown City Historic District (Resource #2004RE01929). Should the scope of the project change and/or should you be made aware of historic property concerns, you will need to reinitiate consultation with our office using PA-SHARE.

For questions concerning above ground resources, please contact Emma Diehl at emdiehl@pa.gov.

## Archaeological Resources

No Archaeological Concerns - Environmental Review - No Effect - Archaeological

Based on the information received and available in our files, in our opinion, the proposed project should have No Effect on archaeological resources. Our analysis indicates that archaeological resources are potentially located in this project area. Should the scope of the project be amended to include additional ground-disturbing activity and/or should you be made aware of historic property concerns, you will need to reinitiate consultation with our office using PA-SHARE.

For questions concerning archaeological resources, please contact Sara-Ladd Manley at samanley@pa.gov.

Sincerely,

ER Project # 2024PR00579.001 Page 2 of 2

RE: 25-27 North 10<sup>th</sup> Street – 25-27 North 10<sup>th</sup> Street, City of Allentown Sewer Module - Chapter 94 Consistency Determination – Appendix A

Dear Mrs. Gomez,

This letter and approval for the attached Sewage Facilities Planning Module is based on the current estimate of available wastewater capacity. This letter does not promise, guarantee or assure any future conveyance or treatment allocation without compliance with all applicable rules and regulations, payment of all necessary fees and availability of the respective allocation at that time.

In accordance with the Interim Act 537 Plan submitted by the Kline's Island Sewer System (KISS) municipalities to the Pa. Department of Environmental Protection and approved on June 25, 2021, an amount equal to the property or development's wastewater flow will be allocated from the Connection Management Plan at the time of approval of the Sewage Facilities Planning Module. This property or development's wastewater flow need, as represented in the attached Sewage Planning Module, is 3.570 gallons per day. Therefore, the Connection Management Plan balance will be adjusted as follows:

Remaining Allocation in KISS Connection Management Plan (as of 10/11/23)	<u>-3,570</u> 2,890,594
This submission	-1,722,965
Previously allocated from prior planning module submissions (since 1/17/20)	and the second
2021-2025 Connection Management Plan Allocation	3,117,129
2020 Connection Management Plan Allocation (all numbers in gallons per day)	1,500,000

Please contact me if you have any questions about this information.

Sincerely. Liesel M. Gross

# SEWAGE FACILITIES PLANNING MODULE

Component 3. Sewage Collection and Treatment Facilities

(Return completed module package to appropriate municipality)

		DEP USE ONLY		
DEP CODE #	CLIENT ID #	SITE ID #	APS ID #	AUTH ID #
				1

This planning module component is used to fulfill the planning requirements of Act 537 for the following types of projects: (1) a subdivision to be served by sewage collection, conveyance or treatment facilities, (2) a tap-in to an existing collection system with flows on a lot of 2 EDU's or more, or (3) the construction of, or modification to, wastewater collection, conveyance or treatment facilities that will require DEP to issue or modify a Clean Streams Law permit. Planning for any project that will require DEP to issue or modify a permit cannot be processed by a delegated agency. Delegated agencies must send their projects to DEP for final planning approval.

This component, along with any other documents specified in the cover letter, must be completed and submitted to the municipality with jurisdiction over the project site for review and approval. All required documentation must be attached for the Sewage Facilities Planning Module to be complete. Refer to the instructions for help in completing this component.

- REVIEW FEES: Amendments to the Sewage Facilities Act established fees to be paid by the developer for review of planning modules for land development. These fees may vary depending on the approving agency for the project (DEP or delegated local agency). Please see section R and the instructions for more information on these fees.
- NOTE: All projects must complete Sections A through I, and Sections O through R. Complete Sections J, K, L, M and/or N if applicable or marked E.

# G. PROPOSED WASTEWATER DISPOSAL FACILITIES (Continued)

## 3. PLOT PLAN

The following information is to be submitted on a plot plan of the proposed subdivision.

- a. Existing and proposed buildings.
- b. Lot lines and lot sizes.
- c. Adjacent lots.
- d. Remainder of tract.
- e. Existing and proposed sewerage facilities. Plot location of discharge point, land application field, spray field, COLDS, or LVCOLDS if a new facility is proposed.
- f. Show tap-in or extension to the point of connection to existing collection system (if applicable).
- g. Existing and proposed water supplies and surface water (wells, springs, ponds, streams, etc.)
- h. Existing and proposed rights-of-way.
- i. Existing and proposed buildings, streets, roadways, access roads, etc.

## 4. WETLAND PROTECTION

YES NO

- j. Any designated recreational or open space area.
- k. Wetlands from National Wetland Inventory Mapping and USGS Hydric Soils Mapping.
- I. Flood plains or Flood prone areas, floodways, (Federal Flood Insurance Mapping)
- m. Prime Agricultural Land.
- n. Any other facilities (pipelines, power lines, etc.)
- o. Orientation to north.
- p. Locations of all site testing activities (soll profile test pits, slope measurements, permeability test sites, background sampling, etc. (if applicable).
- Soils types and boundaries when a land based system is proposed.
- r. Topographic lines with elevations when a land based system is proposed
- a. Are there wetlands in the project area? If yes, ensure these areas appear on the plot plan as shown in the mapping or through on-site delineation.
   b. Are there any construction estimates (a)
  - Are there any construction activities (encroachments, or obstructions) proposed in, along, or through the wetlands? If yes, Identify any proposed encroachments on wetlands and identify whether a General Permit or a full encroachment permit will be required. If a full permit is required, address time and cost impacts on the project. Note that wetland encroachments should be avoided where feasible. Also note that a feasible alternative **MUST BE SELECTED** to an identified encroachment on an exceptional value wetland as defined in Chapter 105. Identify any project impacts on streams classified as HQ or EV and address impacts of the permitting requirements of said encroachments on the project.

# 5. PRIME AGRICULTURAL LAND PROTECTION

YES NO

Will the project involve the disturbance of prime agricultural lands?

If yes, coordinate with local officials to resolve any conflicts with the local prime agricultural land protection program. The project must be consistent with such municipal programs before the sewage facilities planning module package may be submitted to DEP.

- If no, prime agricultural land protection is not a factor to this project.
- Have prime agricultural land protection issues been settled?

## 6. HISTORIC PRESERVATION ACT

YES NO

X

П

Χ

Sufficient documentation is attached to confirm that this project is consistent with DEP Technical Guidance 012-0700-001 *Implementation of the PA State History Code* (available online at the DEP Web site at <u>www.depweb.state.pa.us</u>, select "subject" then select "technical guidance"). As a minimum this includes copies of the completed Cultural Resources Notice (CRN), a return receipt for its submission to the PHMC and the PHMC review letter.

# 7. PROTECTION OF RARE, ENDANGERED OR THREATENED SPECIES

Check one:

1.

The "Pennsylvania Natural Diversity Inventory (PNDI) Project Environmental Review Receipt" resulting from my search of the PNDI database and all supporting documentation from jurisdictional agencies (when necessary) is/are attached.

A completed "Pennsylvania Natural Diversity Inventory (PNDI) Project Planning & Environmental Review Form," (PNDI Form) available at <u>www.naturalheritage.state.pa.us</u>, and all required supporting documentation is attached. I request DEP staff to complete the required PNDI search for my project. I realize that my planning module will be considered incomplete upon submission to the Department and that the DEP review will not begin, and that processing of my planning module will be delayed, until a "PNDI Project Environmental Review Review Receipt" and all supporting documentation from jurisdictional agencies (when necessary) is/are

Applicant or Consultant Initials

# H. ALTERNATIVE SEWAGE FACILITIES ANALYSIS (See Section H of instructions)

An alternative sewage facilities analysis has been prepared as described in Section H of the attached instructions and is attached to this component.

The applicant may choose to include additional information beyond that required by Section H of the attached instructions.

# I. COMPLIANCE WITH WATER QUALITY STANDARDS AND EFFLUENT LIMITATIONS (See Section I of instructions) (Check and complete all that apply.)

## Waters designated for Special Protection

The proposed project will result in a new or increased discharge into special protection waters as identified in Title 25, Pennsylvania Code, Chapter 93. The Social or Economic Justification (SEJ) required by Section 93.4c. is attached.

# 2. Pennsylvania Waters Designated As Impaired

The proposed project will result in a new or increased discharge of a pollutant into waters that DEP has identified as being impaired by that pollutant. A pre-planning meeting was held with the appropriate DEP regional office staff to discuss water quality based discharge limitations.

## 3. Interstate and International Waters

The proposed project will result in a new or increased discharge into interstate or international waters. A pre-planning meeting was held with the appropriate DEP regional office staff to discuss effluent limitations necessary to meet the requirements of the interstate or international compact.

### 4 Tributaries To The Chesapeake Bay

The proposed project result in a new or increased discharge of sewage into a tributary to the Chesapeake Bay. This proposal for a new sewage treatment facility or new flows to an existing facility includes total nitrogen and total phosphorus in the following amounts: \_\_\_\_\_\_ pounds of TN per year, and \_\_\_\_\_\_ pounds of TP per year. Based on the process design and effluent limits, the total nitrogen treatment capacity of the wastewater treatment facility is \_\_\_\_\_\_ pounds per year and the total phosphorus capacity is \_\_\_\_\_\_ pounds per year as determined by the wastewater treatment facility permitee. The permitee has determined that the additional TN and TP to be contributed by this project (as modified by credits and/or offsets to be provided) will not cause the discharge to exceed the annual total mass limits for these parameters. Documentation of compliance with nutrient allocations is attached.

Name of Permittee Agency, Authority, Municipality \_

Initials of Responsible Agent (See Section G 2.b) \_\_\_\_

See Special Instructions (Form 3800-FM-WSFR0353-1) for additional information on Chesapeake Bay watershed requirements.

# J. CHAPTER 94 CONSISTENCY DETERMINATION (See Section J of Instructions)

Projects that propose the use of existing municipal collection, conveyance or wastewater treatment facilities, or the construction of collection and conveyance facilities to be served by existing municipal wastewater treatment facilities must be consistent with the requirements of Title 25, Chapter 94 (relating to Municipal Wasteload Management). If not previously included in Section F, include a general map showing the path of the sewage to the treatment facility. If more than one municipality or authority will be affected by the project, please obtain the information required in this section for each. Additional sheets may be attached for this purpose.

- 1. Project Flows <u>3570</u> gpd
- 2. Total Sewage Flows to Facilities (pathway from point of origin through treatment plant)

When providing "treatment facilities" sewage flows, use Annual Average Daily Flow for "average" and Maximum Monthly Average Daily Flow for "peak" in all cases. For "peak flows" in "collection" and "conveyance" facilities, indicate whether these flows are "peak hourly flow" or "peak instantaneous flow" and how this figure was derived (i.e., metered, measured, estimated, etc.).

- a. Enter average and peak sewage flows for each proposed or existing facility as designed or permitted.
- b. Enter the average and peak sewage flows for the most restrictive sections of the existing sewage facilities.
- c. Enter the average and peak sewage flows, projected for 5 years (2 years for pump stations) through the most restrictive sections of the existing sewage facilities. Include existing, proposed (this project) and future project (other approved projects) flows.

	Capa	d/or Permitted cit <del>y (gpd)</del> M6D	b. Present	MGD Flows (gpd)	c. Projected Flows in 5 years- <del>(gpd)</del> -™60 (2 years for P.S.)

To complete the table, refer to the instructions, Section J.

3. Collection and Conveyance Facilities

LIS Reat Hourly FLOWS - Estimated

The questions below are to be answered by the sewer authority, municipality, or agency responsible for completing the Chapter 94 report for the collection and conveyance facilities. These questions should be answered in coordination with the latest Chapter 94 annual report and the above table. The individual(s) signing below must be legally authorized to make representation for the organization.

 $\Box$ 

a.

This project proposes sewer extensions or tap-ins. Will these actions create a hydraulic overload within five years on any existing collection or conveyance facilities that are part of the system?

If yes, this sewage facilities planning module will not be accepted for review by the municipality, delegated local agency and/or DEP until all inconsistencies with Chapter 94 are resolved or unless there is an approved Corrective Action Plan (CAP) granting an allocation for this project. A letter granting allocations to this project under the CAP must be attached to the module package.

If no, a representative of the sewer authority, municipality, or agency responsible for completing the Chapter 94 report for the collection and conveyance facilities must sign below to indicate that the collection and conveyance facilities have adequate capacity and are able to provide service to the proposed development in accordance with both §71.53(d)(3) and Chapter 94 requirements and that this proposal will not affect that status.

6. The SELECTED OPTION necessary to assure long-term proper operation and maintenance of the proposed non-municipal facilities is clearly identified with documentation attached in the planning module package.

# P. PUBLIC NOTIFICATION REQUIREMENT (See Section Prof instructions)

This section must be completed to determine if the applicant will be required to publish facts about the project in a newspaper of general circulation to provide a chance for the general public to comment on proposed new land development projects. This notice may be provided by the applicant or the applicant's agent, the municipality or the local agency by publication in a newspaper of general circulation within the municipality affected. Where an applicant or an applicant's agent provides the required notice for publication, the applicant or applicant's agent shall notify the municipality or local agency and the municipality and local agency will be relieved of the obligation to publish. The required content of the publication notice is found in Section P of the instructions.

To complete this section, each of the following questions must be answered with a "yes" or "no". Newspaper publication is required if any of the following are answered "yes".

	Does the project propose the construction of a sewage treatment facility ?
2.	Will the project change the flow at an existing sewage treatment facility by more than 50,000 gallons per day?
3.	Will the project result in a public expenditure for the sewage facilities portion of the project in excess of \$100,000?
4.	Will the project lead to a major modification of the existing municipal administrative organizations within the municipal government?
5.	Will the project require the establishment of <i>new</i> municipal administrative organizations within the municipal government?
6.	Will the project result in a subdivision of 50 lots or more? (onlot sewage disposal only)

P. PUBLIC NOTIFICATION REQUIREMENT cont/d. (See Section P of Instructions)
7. X Does the project involve a major change in established growth projections?
8. X Does the project involve a different land use pattern than that established in the municipality's Official Sewage Plan?
9. X Does the project involve the use of large volume onlot sewage disposal systems (Flow > 10,000 gpd)?
10. Does the project require resolution of a conflict between the proposed alternative and consistency
Will sewage facilities discharge into high quality or exceptional value waters?
<ul> <li>Attached is a copy of:</li> <li>the public notice,</li> <li>all comments received as a result of the notice,</li> <li>the municipal response to these comments.</li> </ul>
No comments were received. A copy of the public notice is attached.
Q. FALSE SWEARING STATEMENT (See Section Q of instructions)
I verify that the statements made in this component are true and correct to the best of my knowledge, information and belief. I understand that false statements in this component are made subject to the penalties of 18 PA C.S.A. §4904 relating to unsworn falsification to authorities.

### Introduction

This Conservation Planning Report compiles names, descriptions, maps, locations, measurements, links and references for Natural Heritage Areas (core and supporting habitats), Important Bird Areas, State Lands, and agency designated water resources that are coincident with an area of interest defined by the user of the Pennsylvania Conservation Explorer tool. For an overview and additional details, please be sure to visit the website at <u>www.naturalheritage.state.pa.us</u> and download the applicable County Natural Heritage Inventory report(s).

## Natural Heritage Areas

Natural Heritage Areas (NHAs) are sites that have been identified as critical habitat for species or natural communities of concern. This dataset is designed to identify, map and discuss areas that support species of concern, exemplary natural communities, and broad expanses of intact natural ecosystems that support components of Pennsylvanias native species biodiversity. These areas are prioritized based upon their ecological qualities and provided with recommendations regarding their management and protection. Most of the existing NHAs have been developed through PNHPs County Natural Heritage Inventories – systematic studies of the critical biological resources of a county.

Natural Heritage Site Name	Description	Reference
raiontown Lightin Otreet Bridge-	Manmade structures serve as cliff-like habitat for a breeding population of the PA Endangered peregrine falcon.	Link

Ms. Jennifer de Jesus Empire Property Construction 456 Union Boulevard Allentown, PA 18109

> Re: Act 537 Review - Sewage Facilities Planning Module 25-27 North 10<sup>th</sup> Street City of Allentown, Lehigh County DEP Code No. 2-39001302-3

Dear Ms. de Jesus:

The Lehigh Valley Planning Commission (LVPC) reviewed the above-referenced planning module according to the requirements of Act 537, the Pennsylvania Sewage Facilities Act. We offer the following comments.

This sewage facilities planning module is intended for the proposed renovation of a 3-story building that currently contains nine existing apartment units and two commercial spaces located at 25-27 North 10<sup>th</sup> Street. The project will renovate and retain the nine apartment units and one commercial space. The second existing commercial space will be renovated into four apartment units for a total of thirteen units. The building is already connected to the existing sewer system and ultimate treatment will take place at the Kline's Island wastewater treatment plant. According *to FutureLV: The Regional Plan*, the proposed project is in an area designated for Development in the General Land Use Plan and aligns with the FutureLV actions to 'match development intensity with sustainable infrastructure capacity' (of Policy 1.1) and 'promote development in areas with public sewer and water capacity' (of Policy 3.2).

Enclosed please find an executed Module Component 4b. Please call me if you have any questions regarding this review.

Sincerely,

S. J. Martall

Susan L. Rockwell Senior Environmental Planner

# **1. PROJECT INFORMATION**

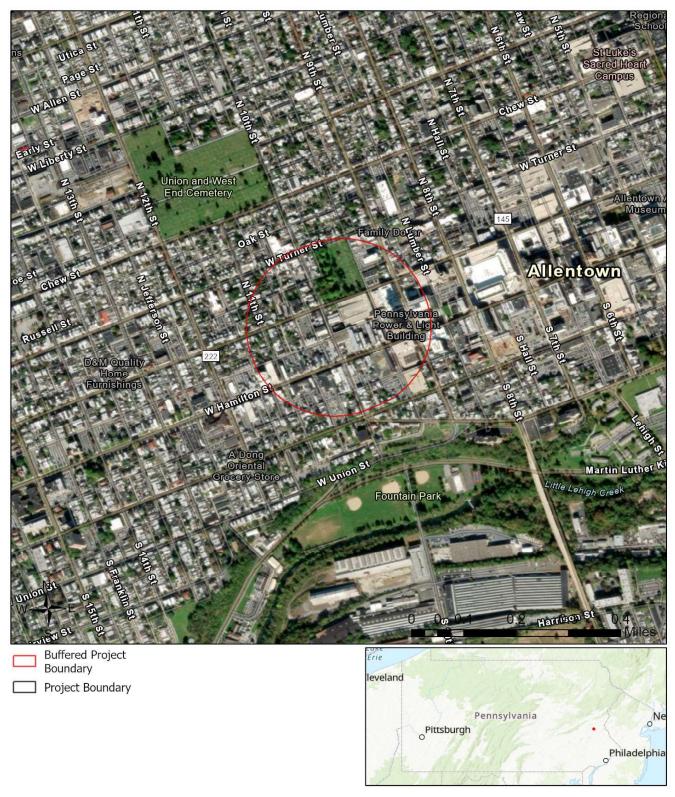

Project Name: 25 -27 N 10th St Date of Review: 12/7/2023 10:25:02 AM Project Category: Development, Additions/maintenance to existing development facilities Project Area: 0.13 acres County(s): Lehigh Township/Municipality(s): ALLENTOWN ZIP Code: Quadrangle Name(s): ALLENTOWN EAST Watersheds HUC 8: Lehigh Watersheds HUC 12: Lower Jordan Creek Decimal Degrees: 40.601430, -75.478031 Degrees Minutes Seconds: 40° 36' 5.1495'' N, 75° 28' 40.9122'' W

# 2. SEARCH RESULTS

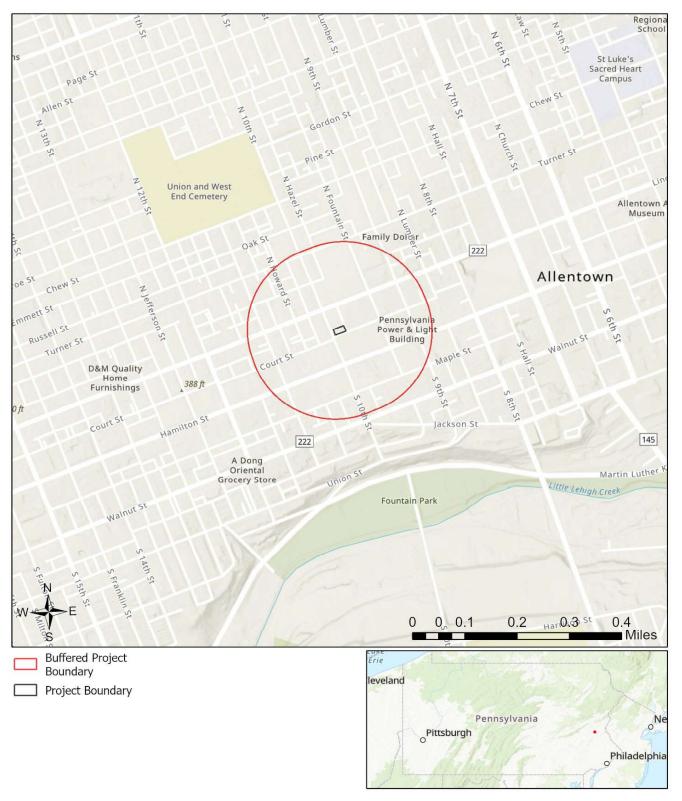

Agency	Results	Response
PA Game Commission	Potential Impact	FURTHER REVIEW IS REQUIRED, See Agency Response
PA Department of Conservation and Natural Resources	No Known Impact	No Further Review Required
PA Fish and Boat Commission	No Known Impact	No Further Review Required
U.S. Fish and Wildlife Service	No Known Impact	No Further Review Required

As summarized above, Pennsylvania Natural Diversity Inventory (PNDI) records indicate there may be potential impacts to threatened and endangered and/or special concern species and resources within the project area. If the response above indicates "No Further Review Required" no additional communication with the respective agency is required. If the response is "Further Review Required" or "See Agency Response," refer to the appropriate agency comments below. Please see the DEP Information Section of this receipt if a PA Department of Environmental Protection Permit is required.

# **RESPONSE TO QUESTION(S) ASKED**

**Q1:** Is tree removal, tree cutting or forest clearing necessary to implement all aspects of this project? **Your answer is:** No

**Q2:** How many acres of woodland, forest, forested fencerows and trees will be cut, cleared, removed, disturbed or flooded (inundated) as a result of carrying out all aspects or phases of this project? [Round acreages UP to the nearest acre (e.g., 0.2 acres = 1 acre).]

Your answer is: zero acres

# **3. AGENCY COMMENTS**

Regardless of whether a DEP permit is necessary for this proposed project, any potential impacts to threatened and endangered species and/or special concern species and resources must be resolved with the appropriate jurisdictional agency. In some cases, a permit or authorization from the jurisdictional agency may be needed if adverse impacts to these species and habitats cannot be avoided.

These agency determinations and responses are **valid for two years** (from the date of the review), and are based on the project information that was provided, including the exact project location; the project type, description, and features; and any responses to questions that were generated during this search. If any of the following change: 1) project location, 2) project size or configuration, 3) project type, or 4) responses to the questions that were asked during the online review, the results of this review are not valid, and the review must be searched again via the PNDI Environmental Review Tool and resubmitted to the jurisdictional agencies. The PNDI tool is a primary screening tool, and a desktop review may reveal more or fewer impacts than what is listed on this PNDI receipt. The jurisdictional agencies **strongly advise against** conducting surveys for the species listed on the receipt prior to consultation with the agencies.

## PA Game Commission RESPONSE:

Further review of this project is necessary to resolve the potential impact(s). Please send project information to this agency for review (see WHAT TO SEND).

**PGC Species:** (Note: The Pennsylvania Conservation Explorer tool is a primary screening tool, and a desktop review may reveal more or fewer species than what is listed below.)

Scientific Name	Common Name	Current Status
Falco peregrinus	Peregrine Falcon	Special Concern Species*

# PA Department of Conservation and Natural Resources RESPONSE:

No Impact is anticipated to threatened and endangered species and/or special concern species and resources.

# PA Fish and Boat Commission RESPONSE:

No Impact is anticipated to threatened and endangered species and/or special concern species and resources.

# U.S. Fish and Wildlife Service RESPONSE:

No impacts to **federally** listed or proposed species are anticipated. Therefore, no further consultation/coordination under the Endangered Species Act (87 Stat. 884, as amended; 16 U.S.C. 1531 et seq. is required. Because no take of federally listed species is anticipated, none is authorized. This response does not reflect potential Fish and Wildlife Service concerns under the Fish and Wildlife Coordination Act or other authorities.

\* Special Concern Species or Resource - Plant or animal species classified as rare, tentatively undetermined or candidate as well as other taxa of conservation concern, significant natural communities, special concern populations (plants or animals) and unique geologic features.

\*\* Sensitive Species - Species identified by the jurisdictional agency as collectible, having economic value, or being susceptible to decline as a result of visitation.

# WHAT TO SEND TO JURISDICTIONAL AGENCIES

**If project information was requested by one or more of the agencies above**, upload\* or email the following information to the agency(s) (see AGENCY CONTACT INFORMATION). Instructions for uploading project materials can be found <u>here</u>. This option provides the applicant with the convenience of sending project materials to a single location accessible to all three state agencies (but not USFWS).

\*If information was requested by USFWS, applicants must email, or mail, project information to <u>IR1\_ESPenn@fws.gov</u> to initiate a review. USFWS will not accept uploaded project materials.

### Check-list of Minimum Materials to be submitted:

\_\_\_\_\_Project narrative with a description of the overall project, the work to be performed, current physical characteristics of the site and acreage to be impacted.

\_\_\_\_A map with the project boundary and/or a basic site plan(particularly showing the relationship of the project to the physical features such as wetlands, streams, ponds, rock outcrops, etc.)

In addition to the materials listed above, USFWS REQUIRES the following

\_\_\_\_SIGNED copy of a Final Project Environmental Review Receipt

### The inclusion of the following information may expedite the review process.

\_\_\_\_Color photos keyed to the basic site plan (i.e. showing on the site plan where and in what direction each photo was taken and the date of the photos)

Information about the presence and location of wetlands in the project area, and how this was determined (e.g., by a qualified wetlands biologist), if wetlands are present in the project area, provide project plans showing the location of all project features, as well as wetlands and streams.

## 4. DEP INFORMATION

The Pa Department of Environmental Protection (DEP) requires that a signed copy of this receipt, along with any required documentation from jurisdictional agencies concerning resolution of potential impacts, be submitted with applications for permits requiring PNDI review. Two review options are available to permit applicants for handling PNDI coordination in conjunction with DEP's permit review process involving either T&E Species or species of special concern. Under sequential review, the permit applicant performs a PNDI screening and completes all coordination with the appropriate jurisdictional agencies prior to submitting the permit application. The applicant will include with its application, both a PNDI receipt and/or a clearance letter from the jurisdictional agencies. Under concurrent review, DEP, where feasible, will allow technical review of the permit to occur concurrently with the T&E species consultation with the jurisdictional agency. The applicant must still supply a copy of the PNDI Receipt with its permit application. The PNDI Receipt should also be submitted to the appropriate agency according to directions on the PNDI Receipt. The applicant and the jurisdictional agency will work together to resolve the potential impact(s). See the DEP PNDI policy at https://conservationexplorer.dcnr.pa.gov/content/resources.

# 5. ADDITIONAL INFORMATION

The PNDI environmental review website is a preliminary screening tool. There are often delays in updating species status classifications. Because the proposed status represents the best available information regarding the conservation status of the species, state jurisdictional agency staff give the proposed statuses at least the same consideration as the current legal status. If surveys or further information reveal that a threatened and endangered and/or special concern species and resources exist in your project area, contact the appropriate jurisdictional agency/agencies immediately to identify and resolve any impacts.

For a list of species known to occur in the county where your project is located, please see the species lists by county found on the PA Natural Heritage Program (PNHP) home page (<u>www.naturalheritage.state.pa.us</u>). Also note that the PNDI Environmental Review Tool only contains information about species occurrences that have actually been reported to the PNHP.

Project Search ID: PNDI- 800979 PNDI Receipt: *project\_receipt\_25\_27\_n\_10th\_st\_800979\_FINAL\_1.pdf* Re: 25 -27 N 10th St Development Project City of Allentown; Lehigh County, PA

Dear Jennifer de Jesus,

Thank you for submitting the Pennsylvania Natural Diversity Inventory (PNDI) Environmental Review Receipt *project\_receipt\_25\_27\_n\_10th\_st\_800979\_FINAL\_1.pdf* for review. The Pennsylvania Game Commission (PGC) screened this project for potential impacts to species and resources of concern under PGC responsibility, which includes birds and mammals only.

## No Impact Anticipated – PNDI Species

PNDI records indicate species or resources of concern are located within the vicinity of the project. However, based on the information you submitted concerning the nature of the project, the immediate location, and our detailed resource information, the PGC has determined that no impact is likely. Therefore, no further PNDI coordination with the PGC will be necessary for this project at this time.

This response represents the most up-to-date summary of the PNDI data files and is <u>valid for two (2) years</u> from the date of this letter. An absence of recorded information does not necessarily imply actual conditions on site. Should project plans change or additional information on listed or proposed species become available, this determination may be reconsidered.

Should the proposed work continue beyond the period covered by this letter, please resubmit the project to this agency as an "Update" (including an updated PNDI receipt, project narrative and accurate map). If the proposed work has not changed and no additional information concerning listed species is found, the project will be cleared for PNDI requirements under this agency for two additional years.

This finding applies to impacts to birds and mammals only. To complete your review of state and federallylisted threatened and endangered species and species of special concern, please be sure that the U.S. Fish and Wildlife Service, the PA Department of Conservation and Natural Resources, and/or the PA Fish and Boat Commission have been contacted regarding this project as directed by the online PNDI ER Tool found at www.naturalheritage.state.pa.us. Sincerely,

Sue Juis

**REVISIONS:** # DATE DESCRIPTION

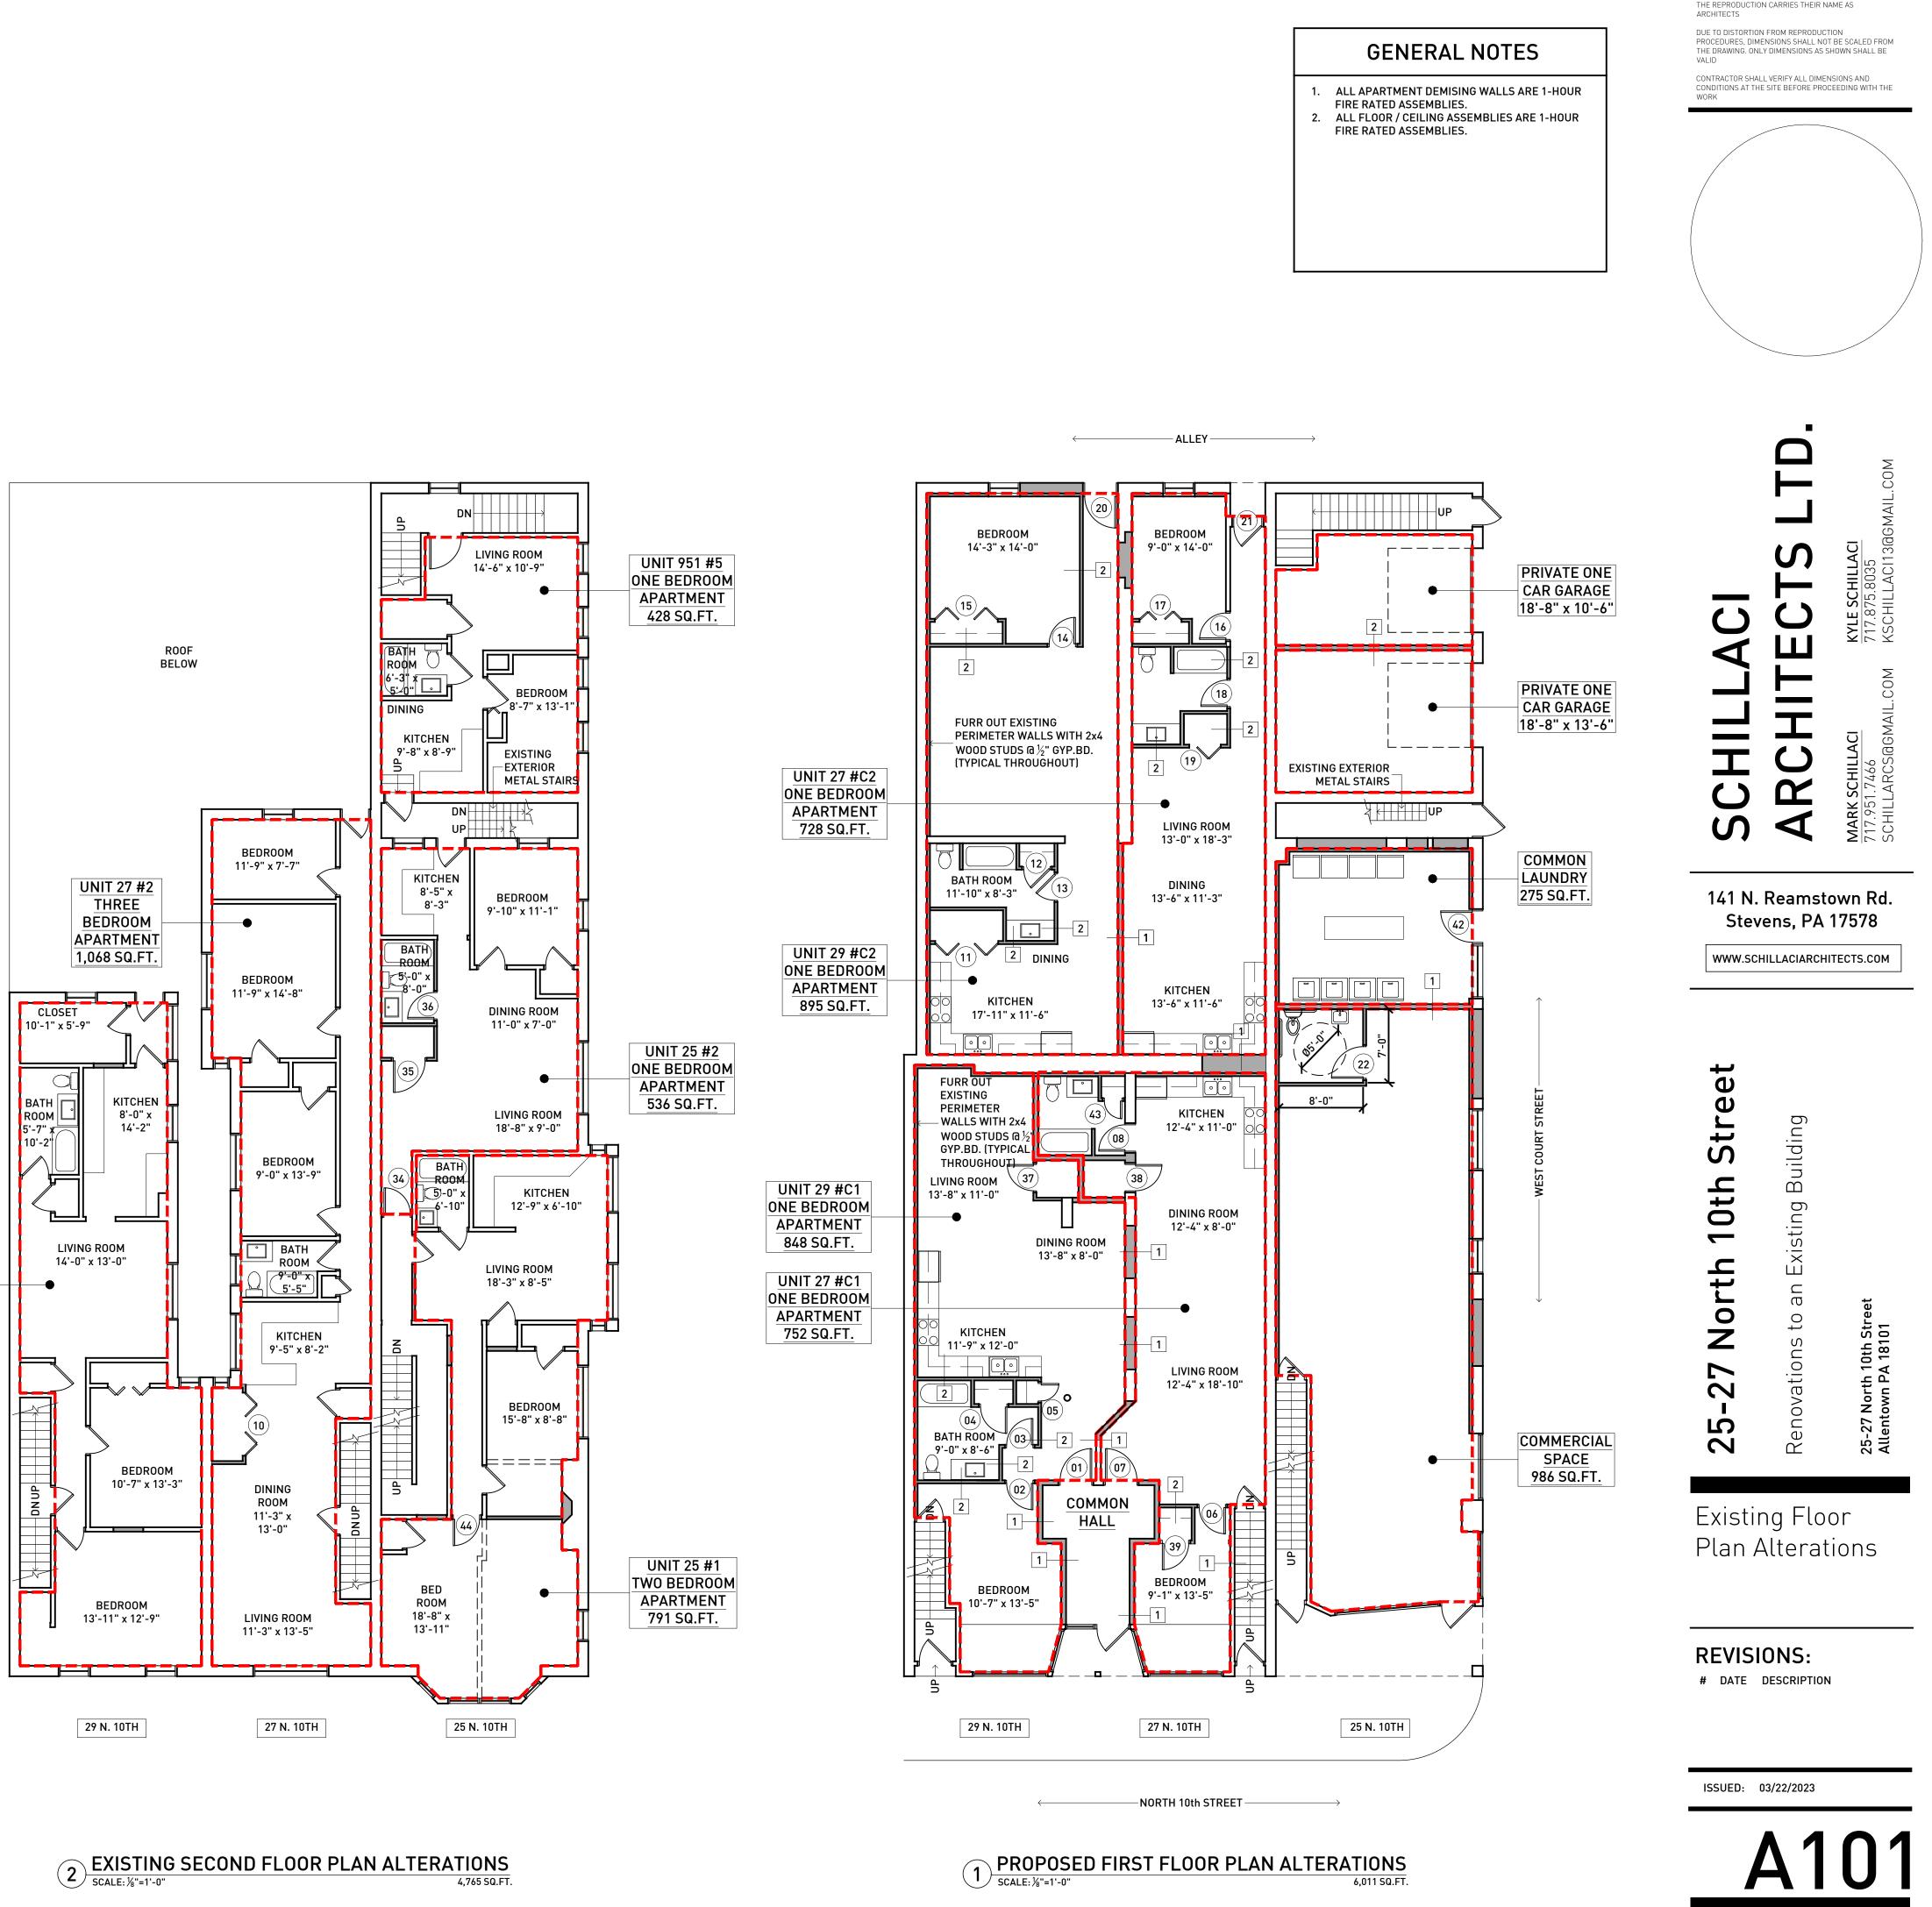

ISSUED: 03/22/2023

THIS DRAWING AS AN INSTRUMENT OF SERVICE. IS THE PROPERTY OF THE ARCHITECTS, AND MAY NOT BE REPRODUCED WITHOUT THEIR PERMISSON AND UNLESS Upon your review of these materials, I would respectfully request to have the above Resolution placed on City Council's agenda for approval. Upon approval of same, please have the City Cleric complete and notarize the packages for submission to PA DEP. Note that proof of publication/advertisement of the resolution must also be included in the module package, so please include a copy of such as well. A copy of the package included herein may be retained for your records. For your convenience, the forms requiring completion by the City have been placed at the front of the submission package and are outlined below:

- PA DEP cover letter
- Resolution of Adoption
- Standard PA DEP transmittal letter

In the past, we have been made aware that the City may have their own standard resolution format for Sewage Facilities Planning Modules. We have spoken to PA DEP previously about this, and it has been found to be acceptable. However, for your convenience, we have included copies of the standard PA DEP forms should the City chose to use them.

Upon completion of the included copies, please return them to my attention with the proof of publication/advertisement so that I may submit them to Mr. Corby at PA DEP.

Upon receipt and review, should you have any questions or require additional information, please do not hesitate to contact the undersigned.

Respectfully,

Black Forest Engineering, LLC

Joseph E. Rentko, PE
