

KISS Act 537 Plan

The Kline's Island Sewer System (KISS) Act 537 Plan is an official municipal planning document that outlines our region's sewer system needs for the future. The plan includes details about the projects we will complete in each community, what it will cost, and how we are preparing to meet each community's future needs for sewer service. Read other sections of this website to learn more about this regional sewer system, the challenges we face, and the ways the KISS municipalities are working together to find solutions.
