Mr. Ed Zucal thanked President Mota and stated well he has been on

Council for seven years and think that this is only the fifth time he has given out Proclamations because he thinks that they have to be well earned. He shared a story with them. On two Sundays ago, on November 24th, he was invited to the Oath with is the Operation Against the Homeless to help serve meals to the homeless. When he arrived there were all these young gentlemen there. Gentlemen that would normally be out there chasing girls, but instead they were there helping to feed the homeless. He wants to tell them and he is not easily impressed, but he spoke to the Clerk the very next day and all he could do is brag about he guys. These guys, if this is our future, we are going to be ok. He stated to the Coach he sees that he brought the next line up with him here. Thank you for bringing him. He read the Proclamation to the Penn State Lehigh Valley Men's Basketball Team.

Chief Charles Roca stated that he just wants to say thank you to Council and the Mayor for this recognition. He stated that it is not just about him. It is the hardworking men and women of the Allentown Police Department who do the good work that reach out to the vulnerable populations that are out there. He stated that they are going to tell people to do the right thing and bring professional police services to the forefront. He stated thank you.

Ms. Carol Gallagher, 1122 Linden Street, #2, stated that she has known Candida about 40 some out years now. She stated that she moved out of the area for quite a while and when she moved back somewhere in the early 80s, they became friends and she was also her employer at her bar at 12th and Chew for many, many years. She was a very kind woman, a very decent woman, and not once would she say that she would have been prejudice of any kind. They had a very diverse crowd behind the bar. She stated that she also participated there. She stated that she really enjoyed her time with her. They are still friends. Not once has she ever heard her say any racial slurs at all.

Mr. Dennis Carrigan, 4145 Primrose Drive, stated that he is friends with Candida for about 54 years. He met her in 1968 and they became good friends. They remain friends. He went for her at her bar. Never once would he would think of her being prejudice. It is just not like that. It is not her. He stated that he has nothing, but nice things to say about her and she has a lot of nice things to say about people. She is very kind and will do anything

for you. He stated that is not her. He stated that they have been friends for so long and he just knows her.

Ms. Celeste Surrell, 1230 W. Walnut Street, 2nd Floor, stated she met Candida in 2018 when she relocated from California. She stated that Candida has been very helpful with her family. They go to lunch and dinner. They always talk. If she had problems regarding her landlord, she helped her. She made sure someone came to check the property and the problem was resolved. She was very upset to hear on the news everything she was hearing. She stated that Candida is a dear friend of hers and never heard any kind of racial slurs from her. She stated that she is a good person. She really helped the family when they moved here.

Ms. Phyllis Alexander, 109 Kingfisher Lane, stated good evening everyone. She stated that she saw the suit, the description of the discrimination suit in the paper this morning. So she thought she would stop by and offer her comments and thoughts about this. Just because she reads something in the paper, she is clear that she does not have the whole story. She only have what she read, but what she does know is Tawanna is meticulous, thoughtful, cautious, careful and she would not file a complaint that is frivolous. She encouraged them to think about what are their next steps. She stated that she hopes that they are thoughtful, considerate, thorough because this is an opportunity to model to the city what you should do when accused when there are allegations of discrimination. She stated that you can double down. You can get defensive or you can decide to be curious and thoughtful and really examine all of the points that are being made and to really try to figure out how this city can be its best. She stated that she hopes they are thoughtful about their next steps. She stated and lastly, she was formerly the Director of the Human Relations Commission and she can tell them for a fact that being nice has nothing to do with whether or not you will behave in a way that is discriminatory.

Ms. Robin Riley-Casey, 217 N. Ott Street, stated that she is a previous Human Relations Commissioner. Many of them that are sitting behind that table was on the Human Relations when she was there. She stated Daryl Hendricks, Cynthia Mota, Ce Ce Gerlach and at that time Tawanna has always remained professional. In fact, she loves to be behind the scenes, not in front. She is meticulous. She is organized. Many of the Ordinances that had to do with LGBTQIA in the city of Allentown had to do with her support and her amazing ability to get things done through all the particulars of city government. She stated what she knows about Tawanna as a professional, not personally is that she always maintained clear boundaries between her role in the city of Allentown and her relationships outside of that. She always cared for the city and this community in its totality. Not whether you were Black, Brown, White, Asian, Latino, Queer,

Straight, Christian, Muslim. That is who she is. She stated that she doesn't know all the facts at all, but what she does know is when a friend of yours or a professional colleague calls for you to stand with them, don't tuck your tail and run and stated that is what she does know. And, all the niceness. We all thought everybody was nice up until the day of the election. She had so many allies up until the day of the election. It is really funny how it works out. What she can tell them, in terms of Tawanna Whitehead she would stand with any member of this community regardless to make sure the business of the city gets done and gets done equitably that stated that is why she is here. Thank you.

Mr. Michael Surrell, 2404 S 2nd Street #A, stated that he is a 72 year old Vietnam War Veteran. He stated that he is a Black man. He came out here 10 years ago from California. He was forced to move, had to move into a row house because he was not allowed to live in his RV which was his wife and three children drove out here. The rowhouse that he moved in was in bad shape, basically. He had no choice because his kids had to go to school. He went into a burning building and saved a little girl. He had injuries to his lungs. He could not breathe. He had third degree burns to his lungs. At his home one day, his sister came to the door and there was a woman with her, Ms. Candida Affa. She came in the house and introduced herself and looked around and started seeing the condition of the home he was living in and the black mold and everything. It was just terrible. He called out to everyone in this city for help. Everyone and every call he could possibly make and got no response. He stated that Candida came into his home and said this isn't right. He said that he has to move because he can't live here. It is detrimental to the health to himself and his children. The landlord took him to court. He did not pay rent that month because he had to save money to move. He is a Vietnam Veteran on a disability pension. He had to go to court and Candida went to court and backed him. She helped him. He won that case and it turned out the landlord owed him \$900 after he turned in all his paperwork. After that because a reference she gave he was able to get into a home. He stated that Candida invited him, his wife and his three children to her home where they sat and ate. They went to the pool, pool party. They all got in the pool together and had a great time. His children are so happy, relieved and thankful for Candida. She brought his youngest son here and he wanted to be an Allentown Police Officer. He came up in here and it was a different mayor and you guys have really prettied it up in here. He decided he wanted to go into city government here because of this woman. Now, people get angry and say things and sometimes they take them so far out of whack it is unbelievable because of their reputation he has been hearing. At 72 years old and he comes from a hard life, he knows racism and know prejudice very, very well. This woman is not prejudice. She is not racist. People get angry and say things. We all do. We all make

mistakes. He stated that Candida Affa is a great person and a great woman.

Mr. Jaime Ortiz, 245 N. 12th Street, stated this wonderful lady Candida Affa for the past 20 years he has known her and lived and grew up on the same block as her, coming from a Hispanic poor family not once has she ever made any racial slurs towards them, treated them any other way. She treated them as normal humans. He stated not only that, she is his landlord too. Any problems or issues that he has with her, she helps him out. Last year, he stated that he was unemployed for three to four months and he brought it to her attention and she helped him and did everything she could to make sure he got on his feet and told him don't worry about paying the rent and don't worry about this and don't worry about that. He didn't have a license or car or nothing and every step of the way, she was there with him every step of the way. She picked him up and they studied and driving. They did the whole nine yards. She knows his grandparents for maybe 30 plus years and they are Hispanic. He stated that she is an amazing woman. These accusations that are going around about her, in his opinion are false. No one has to go through what she is going through at all. He stated that he doesn't believe that she is racist or anything at all. He stated that she is a wonderful woman and he loves her.

Mr. Don Ringer, 1801 Liberty Street, stated that he has known this lady for about 40 years. They both in the tavern business about the same time. They have always done well with each other. He always respected her. She always respected him, except for the time she throw him out of Chambers one time and that was it. She had people of color working for her for a number of years and that doesn't sound like a person that is racist. He stated that he doesn't think there is a racist bone in her body. He stated that they will be discussing this and asked to give Candida the benefit of the doubt. She is a great and wonderful person. He would never say anything bad about her.

[Resolution #30966](#)

Dr. Cynthia Mota asked if there are any comments from the dais.

Mr. Ed Zucal stated that this basically has to do with a lot of contracts, not just this one. He just doesn't understand how people submit plans for a contract that they don't have more concise numbers. They are constantly doing Change Orders for these contracts. Someone needs to step up their game here.

Dr. Cynthia Mota thanked Mr. Zucal and stated go ahead Ms. Gerlach.

Ms. Ce Ce Gerlach stated on similar lines, is this the second Change Order that has to do with the Zoning rewrite and asked when will this thing be done.

Ms. Vicky Kistler stated that basically this started pre-Covid. Covid suspended the work for a while. Now, we were determined to have as much community engagement as they could. They had no idea that they will receive this amount of community engagement. They have had discussions with community groups. They have had contractors. They have had citizens. They have had property owners. They have had developers. They have had everyone. Coming in recently, they have had colleges and universities as well as nonprofits. She is hoping that this second round of community engagement will be the final round and they will be bringing them a product that they have taken into consideration of every stakeholders opinion and given them the best product. Because they are taking all that community engagement, it extended the life of the professionals who are doing the research behind putting this together to make sure we have no spot zoning which is illegal and to make sure they are taking the best route forward in this. Again, the reasons for the Change Orders was when this was bid, this was pre-Covid which was much cheaper then than it is now. She stated that she is hoping that this is not only our final, but you will have a product early 2025 to vote on.

Dr. Cynthia Mota thanked Ms. Kistler and asked if there were any other comments.

Mr. Santo Napoli stated that he would like to add that he has been part of these meetings since Covid and it has been a long process. It's been an arduous process. It is something that is obviously important to the city. This is a monumental task and he gotten to learn a lot about Zoning through all these Zoom calls and Teams calls. He has been to some of the community meetings that was had throughout the city. To Ms. Kistler's point, it has been a process that has turned into something bigger than any

of us expected. He stated that it is a good thing because, the end product will reflect that. The amount of feedback that they have taken back from these consultants has been substantial and they are working hard to give that final product. He wanted to mention that along the way he has been part of it and it has been really substantial and very expressive. It is something that they all will be proud of when it is finished.

Dr. Cynthia Mota thanked Mr. Napoli and asked if there were any other comments from the dais or the public.

Ms. Jessica Baraket stated that she just wants to make one additional comment as well. This wasn't for them changing their pricing. This was for additional work that was incurred. She just wants to make sure that is clear. That was not something that was identified or could have been identified at the beginning when they bid their pricing. It was for additional work that was not identified when the original bidder was done and then the contract has been extended along the years that this has gone on. It just wasn't something that was missed on the contractor's end or Purchasing end. This had to do with work that had not been identified originally.

Dr. Cynthia Mota thanked Ms. Baraket and asked if there were any comments from the public.

[Resolution #30967](#)

Ms. Jessica Baraket stated that she is going to say the same thing kind of for this one and the next one as these are Change Orders as well. When these contracts are identified at the beginning of the contract, they don't know what's said is the cost or the supplies, the cost of overages, the monthly lease cost. Those costs are set and those costs don't change. What we don't know is the usage is going to be. What supplies are going to be needed. What overages they are going to have throughout some of these contracts are three year contracts. Some are five year contracts. Those things are the unknown. That is where the contract Change Orders

came in for this one and for the next one. It is because if we think we are going to use a certain dollar amount within supplies of overages and it goes over that, they cut needs to come back to request the additional funds. For this one and the next one, it does have to do with needing additional support supplies and the print volume being over what was originally anticipated when they set the contract up.

Dr. Cynthia Mota asked if there were any comments from the dais or the public.

Ms. Jessica Baraket stated that this was done as Bid #2024-45. It was advertised on Public Purchase on October 18, 2024. There was a Public Bid Opening on November 15, 2024. The city received one bid which is from Golf Car Specialties and the city is recommending an award to sole

bidder.

Dr. Cynthia Mota asked if there were any comments from the dais.

Mr. Daryl Hendricks stated his question is that there is only one bid. He asked is that unusual.

Ms. Jessica Baraket stated not typically for this type of bid. It is not something that it is a ton of. She did look at who downloaded the bid. There were others out there. It was downloaded by Golf Car Inc., Golf Car Specialties and Golf Car Services as well as 27 other bidders. Those were the ones that stood out to her based on their names. They chose for whatever reason chose not to. They might not provide leasing options which is not an unusual thing that they don't provide leasing options.

Communications

Mr. Santo Napoli stated that he would like to mention for visitors that are attending City Council meetings, they are encourage to park in the government deck next door to city hall. He stated to see the Clerk, Mr. Hanlon for a Chaser ticket that will pay for your parking.

Dr. Cynthia Mota thanked Mr. Napoli. She stated Executive Session on December 4, 2024 City Council held an Executive Session with the City Solicitor to discuss three Lehigh County Common Pleas matters and one US District Court Eastern District matter. Randy Fey and David Howells v. The City of Allentown, ET.AL. Case Number 2024-C-1296. Jose Angeles and Liselot Rodriguez v. The City of Allentown, Et.AL. Case Number 2023-C-978. Serfass Construction v. The City of Allentown, Case Number 2023-C-1654. Council also discussed a spoliation request. The session was held pursuant to section 708 of the State's Open Meetings Statute.

Dr. Cynthia Mota stated those that are in favor say, I.

Ms. Candida Affa stated I.

Mr. Daryl Hendricks stated I.

Ms. Ce Ce Gerlach asked if they are discussing.

Mr. Michael Hanlon stated that he believes that they should ask Ms. Montero about the procedures.

Dr. Cynthia Mota stated her apologies, Ms. Montero.

Attorney Maria Montero stated that Motion that was made should be read so that everyone understands what the Motion is and it is open for debate after the Motion is made and seconded.

Dr. Cynthia Mota stated let's talk about it and stated that they are allowed to talk about it.

Ms. Ce Ce Gerlach asked if that can be read again.

Mr. Santo Napoli made a Motion to temporary suspend the litigation between the administration and City Council on the investigation and the FLEO Contract that is scheduled for a Hearing tomorrow and work with the administration, City Council and both Solicitors to develop and expedite an independent investigation.

Dr. Cynthia Mota asked if there were any comments from the dais.

Ms. Ce Ce Gerlach stated since they have a contract with an attorney, what happens with that. She stated that Council has a contract that she supposed to handle this. She asked if they are in breach of contract if they do this.

Mr. Michael Hanlon stated that he would say they are paying the bills for the attorney. He stated that they are doing that.

Dr. Cynthia Mota asked if there were any other feedback.

Mr. Ed Zucal stated that he believes the reason that they are going into litigation tomorrow is that they been unable to come to a resolution with the administration.

Dr. Cynthia Mota asked if there were any other comments from the dais.

Ms. Ce Ce Gerlach asked is there an explanation as to where this is coming from. Tomorrow is the court date, right. She stated that she knows he had some reservations and regrets. Council had multiple votes on this. Tomorrow, a judge will here both sides and she trusts that the judge will make a decision based on hearing both sides. She trusts a judge. Let a judge figure this out. She stated that she thinks it is a male so this is what he does. This is not out of his ballpark. Where they tried to do the whole negotiate. They tried this. Let a judge make a ruling. It might not be in our favor, if you want the investigation to continue. She stated that you might be happy with the result. You actually might be setting yourself up to have an unfavorable situation, depending on what the judge says. If everything that some people on Council and all the concerns that some folks on Council such as yourself Mr. Napoli are true, then the judge will definitely rule against use going forward with the investigation. There is nothing to worry about.

Mr. Santo Napoli stated that he briefly just say that this was introduced back in September of 2023. They voted on it early October 2023 and here

we are 14 months later and Council hasn't done what they were supposed to do for the folks that same to Council and said we want your help. This is an opportunity and he looks at it as an opportunity to reset. To find a way to move this along in a more expeditious way. He believes what is going to happen with what you mentioned tomorrow isn't going to mean it is going to be an answer tomorrow. It could be months of more back and forth. He wants to finally move this forward. He stated that is why they can reset and move it forward in a way that will serve the folks they are trying to serve in a much faster way.

Mr. Ed Zucal stated that this would have been settled a long time ago had the mayor had not refused or the mayor refused to cooperate with Council. At his own admission here, in Council Chambers he asked Council to vote 7 - 0 to do this investigation. Once Council did that, he blocked it. He stated it is not us that is delaying this. It is the administration. That is why they are going to a Hearing tomorrow because there is no resolution.

Ms. Ce Ce Gerlach stated that it is not uncommon when there are two parties that cannot come to a resolution to have an outside arbitrator, mediator, and in this case a judge to help expediate that along. She stated that it is not uncommon. That is what they got here. They got the administration saying one thing. Many of them on Council are saying something different. She stated to your point, we have been at this for months and have yet to do an investigation because the administration, the hold up was they wanted someone from the administration to be on the selection committee. That is not going to change. They are still going to want that. She stated that they still are going to feel how they feel. Let's have a judge make his ruling and work with that. That is also legally will have a judge saying this is what you can and can't do. This is what should happen. She thinks that would help them in terms of any future legal litigation or anything because it s a ruling from a judge. Be that tomorrow, be that a month from now. Sometimes quick is not always best.

Dr. Cynthia Mota asked if there were any other comments from the public.

A motion was made by Santo Napoli, seconded by Daryl Hendricks to temporary suspend the litigation between the administration and City Council on the investigation and the FLEO Contract that is scheduled for a Hearing tomorrow and also work with the administration, City Council and both Solicitors to develop and expedite an independent investigation.

Controller's Report

Mr. Jeffrey Glazier stated that he has no Report tonight, but they do have some coming down the pike in the next couple of weeks.

Mr. Ed Zucal asked Mr. Glazier when will Council get the Bill for the mayor's trips

that Council has been asking for for about six weeks.

Mr. Jeffrey Glazier stated excellent question sir. Most trips are paid for on P-Cards. They are working on the August one now. They will not that the Democratic Convention that they might have been concerned about was in August. There are no Bills for that trip paid by the city.
